FTS532: MAKE-UP AND SPECIAL EFFECTS

Course Name (English)	MAKE-UP AND SPECIAL EFFECTS APPROVED
Course Code	FTS532
MQF Credit	2
Course Description	This course is focused on the introduction to the basic principles, techniques and practices of makeup techniques for the creative industries. The students would be conversant and able to differentiate the different types of make up regularly used in the creative industries as well as handling proper make up materials and tools. The students would also be able to design and execute make up designs for productions thus having a better understanding of the characters they are designing as well as using visual images as a source of inspiration. The knowledge of make up artistry in the creative industries are rewarding as the student in the future could not only explore the art on themselves as a performer but the many possibilities in character design and imaging for the industry.
