## ACKNOWLEDGEMENT

Assalamualaikum and Alhamdulillah on the completion of this Final Year Project. This Final Year Project is a requirement of Universiti Teknologi Mara (UiTM) to the Degree's student who are in the final semester before they can complete their degree's course. This is not an easy task and it would not possible to complete without support and help of numerous people. Hence, I would like thanks to all people who directly and indirectly involved in the making of this study.

First of all, I would like to express my deepest gratitude to my supervisor of research project, Mdm. Nur Hafidzah Idris which has provided me an adequate information and useful resources in completing this research project. Her supervision, guidance and direction that really help in the project progress and smoothness of the research. The patient and dedication in helping me on this research is much appreciated.

Next, I would like to thanks the working team at Practical Unit, Universiti Teknologi Mara (UiTM) Melaka city campus on their work and effort in managing and supervising last semester's student in term of practical and final year project matters.

Finally, I would like to express every special thanks for my parents, relatives and friends who have been giving their love and support towards the whole period of conducting this research project.

## TABLE OF CONTENTS

	<b>Page</b>
Acknowledgement.....	iv
Table of Contents.....	v-vii
List of Tables.....	viii
List of Figures.....	ix
List of Abbreviations.....	x
Abstract.....	xi
<b>CHAPTER 1 BACKGROUND OF STUDY.....</b>	<b>1</b>
1.0 Overview .....	1
1.1 Background of study .....	1-2
1.1.1 Stock market in Malaysia .....	2-3
1.2 Problem Statement.....	4-6
1.3 Research Question .....	7
1.3.1 Main Research Question.....	7
1.3.2 Specific Research Question.....	7
1.4 Research Objectives .....	7
1.5 Significance of the Study.....	8
1.5.1 Malaysian government .....	8
1.5.2 Corporate Management Team/Investors .....	8
1.5.3 Economies and Researchers .....	8
1.6 Scope of study.....	9
1.7 Limitation of study .....	9
1.7.1 Time series data .....	9
1.7.2 Ordinary Least Square .....	9
1.7.3 The data used only from Malaysia .....	9-10
1.8 Conclusion .....	10
<b>CHAPTER 2 LITERATURE REVIEW.....</b>	<b>11</b>
2.0 Introduction.....	11

2.1 Theory Related To Research.....	11
2.1.1 Efficient Market Hypothesis .....	11-12
2.2 Stock Index .....	12-14
2.3 Interest rate .....	14-15
2.4 Exchange Rate.....	16-17
2.5 Money Supply.....	18-19
2.6 Consumer Price Index (CPI).....	20-21
2.7 Research framework and Hypothesis .....	22
2.7.1 Research framework.....	22
2.7.2 Research hypothesis .....	23
2.8 Conclusion .....	24
<b>CHAPTER 3 RESEARCH METHODOLOGY.....</b>	<b>25</b>
3.0 Introduction .....	25
3.1 Research Design.....	25
3.2 Method of data analysis.....	25
3.2.1 Unit root test (stationary test) .....	25
3.2.1.1 Augmented Dickey-Fuller (ADF) .....	25-26
3.2.1.2 Phillip-Perron (PP) test .....	26
3.2.2 Normality test (Jacque Bera) .....	26-27
3.2.3 Ramsey’s regression (RESET) .....	27
3.2.4 Multicollinearity .....	28
3.2.5 Autocorrelation (Durbin Watson test) .....	28
3.2.6 Heteroscedasticity (White test) .....	28
3.2.7 Ordinary least square .....	29
3.3 Conclusion.....	29
<b>CHAPTER 4 DATA ANALYSIS.....</b>	<b>30</b>
4.0 Introduction.....	30

## **ABSTRACT**

The stock market fluctuation is the problem that often happened in any countries in the world and it will affect the country's economy. This study in order to investigate the stock market fluctuation in Malaysia, the study using FBMKLCI as the indicator to measure the fluctuation of stock market in Malaysia. The determinant that affect the stock market are interest rate, exchange rate, money supply and consumer price index. The data consists from May 2008 until May 2018. Based on the result obtained in this study indicate that there are 3 variables that have significant effect toward Kuala Lumpur Composite Index (KLCI) which is Interest rate, Exchange rate and Consumer price index meanwhile Money supply indicate an insignificant effect toward Kuala Lumpur Composite Index (KLCI). This study will provide a further explanation on the stock market fluctuation in Malaysia.
