ACKNOWLEDGEMENT

All praise to Allah S.W.T. the most Gracious and the most Merciful and peace is upon His Messenger, Prophet Muhammad S.A.W. and all his worship belongs to Allah S.W.T.

Alhamdulillah for giving me strength, health, patience, guidance and it has been a most valuable experience to be able to complete this project paper. I am grateful to have the support and motivation from many peoples throughout completing this study.

First and foremost, I am greatly indebted to my respected lecturers, Madam Azlin Zanariah Binti Bahtar and Dr. Noraznira Binti Abdul Razak for their advices and unlimited attentions in encouraging me to complete my project paper. A thousand thankful again is dedicated to them from the bottom of my heart.

I also would like to acknowledge to all staffs of Majlis Agama Islam Melaka (MAIM) for allowing me to complete my project paper. They are willing to help and cooperate with me to spend their time to answer my questionnaires.

Our token of appreciation also goes to my beloved family members who never failed to support me. Last but not least, I also want to take this opportunity to extend my greatest gratitude to my friends especially my classmates for their support.

ABSTRACT

This research was conducted for the purpose of “Job Stress and Job Performance among Staffs in Majlis Agama Islam Melaka (MAIM)”. The main objective of this research was to determine whether there is negative relationship between job stress and job performance of staffs in Majlis Agama Islam Melaka. It is part of researcher’s intention to provide a few suggestions for staffs on how to improve job performance by reducing job stress. This research paper is supported by primary and secondary data. As for the primary data, the researcher used questionnaire as a medium to collect information from staffs in Majlis Agama Islam Melaka. On the other hand, reliable sources have been used by the researcher as secondary data which main gained from journals and articles. The researcher used Statistical Package for Social Science (SPSS) as a platform to analyzed data gained from the respondents. This research will provide the proof of whether all the independent variables have significant negative relationship with performance of staffs.
