ACKNOWLEDGEMENT

Alhamdulillah all thanks and praises are due to Allah s.w.t. for making things possible, for giving me the strength, spiritual and healthy physical also inspiration to complete this project paper accordingly.

First of all, I would like to place my sense of gratitude to my advisor, Dr. Ahmad Fadhly Arham for his valuable guidance, continuous support and encouragement provided to me throughout the complete of this paper project. May Allah bless him and his family.

It is biggest pleasure to acknowledge and thanked to my supervisor Puan Suhaila (Majlis Daerah Rembau) and staffs at my internship company for their great corporation and patient assistance and great course during my practical training from 3rd August 2015 until 20th November 2015.

The training is absolutely beneficial for me. All their supports and cooperation are remembered and appreciated. I would like to dedicate my deepest gratitude to my beloved parents for their blessing, understanding, unconditional love, trust, and support morally and financially. May Allah bless my family.

Last but not least I would like to thank everyone that involved directly or indirectly for their contributions, invaluable support and encouragement they have place on me. Without everyone continuous support, this research would not be complete. Hopefully, this research paper will satisfy my lecture and can share all the benefit, knowledge and experience form this case. Thank you.
