ACKNOWLEDGMENT

In the name of Allah, the Most Gracious and the Most Merciful

Alhamdulillah, all praise to Allah for the strength and His blessing for us to complete this study. Special appreciation goes to our respected supervisor, Mr. Mushaireen bin Musa for his supervision, guidance, constructive idea, patience and constant support throughout finishing this project. His invaluable suggestions, helpful information and insightful comments have helped us tremendously at all times in our research and writing of this thesis. We are thankful to him for his precious time in guiding us. Without his guidance and relentless help, this thesis would not have been completed on time.

A sincere thanks goes to our Academic Advisor, Mr. Abd Razak bin Abu Kassim for giving us advice and support. Not to forget Dr. Mohd Hairi bin Jalis as our lecturer of Research Methodology course who taught us this subject. In particular, we would like to thank all the lecturers of Faculty of Hotel and Tourism Management especially Food Service Management lecturers for their support and help towards this study. Same goes to all staff of UiTM Cawangan Terengganu Kampus Dungun for their kindness, hospitality and technical support indirect or directly contribution upon our project.

Last but not least, we would like to express our deepest thanks to our beloved family. Their support and encouragement is our source of strength. Thank you for their endless love and prayers. Not forgetting to all our friends for their kindness and moral support throughout this study. Thank you for all the friendship and memories that we shared together.

ABSTRACT

In Malaysia, food label have been compulsory to be applied in all the food products in order to help consumer acknowledge and make proper decision before buy it by reading the information provided on it. This study expected to improve the understanding and concerning reading the food labeling among students at UiTM Cawangan Terengganu Kampus Dungun by looking at which the most factor leads to the buying decision. The questionnaires were distributed to the students at UiTM Cawangan Terengganu Kampus Dungun according to the number of respondents required for each faculty which calculated by using stratified sampling method. The objective of this study are to identify level of nutrition facts, ingredients, health claim, Halal logo and expiry date in influencing buying decision making and to identify the most common variable that influence buying decision making. Descriptive analyses and Multiple Regression are used in the study. The finding of this study showed the expiry date has highest value which influences students UiTM Dungun in buying decision making compare to other variables.

Keywords: Food label; decision making; nutrition information; halal logo; expiry date
