FOREWORD

ASSOC. PROF TS. DR MOHD RASDI ZAINI
Rector
Universiti Teknologi MARA (UiTM) Cawangan Melaka

Welcome to Virtual-Melaka International Intellectual Exposition 2022 (V-MIIEEX 2022). It is an honour for me on behalf of UiTM Melaka Branch to thank all of you for joining the programme and we are proud to inform you that this is the 12th year consecutively, UiTM Melaka Branch is organizing this exposition.

V-MIIEEX 2022 is a platform to improve the commercialization collaboration among industries and communities and at the same time, we also give the opportunity to academicians and students to share ideas and increase their potential innovation products with the industries and communities through their projects. This exposition also serves as a platform to cultivate and upload the nation's innovation culture by presenting new ideas and research by young people, especially from academia, universities, college, high schools, and primary school students.

The economy and development of the country faced a challenging phase in 2021 due to the Covid-19 pandemic. We faced changes in business, education, society, and lifestyle. However, the pandemic proved to be a blessing in disguise as it somehow gave people ideas which would be beneficial to improve their lifestyle and solve problems that might occur in the future. Besides, the new digital landscape also inspires more innovation and new ideas that contribute to various activities such as business and industries. As a university that encourages the "Research, Innovation and Commercialization", this exhibition is organized to encourage more commercialization of products that are beneficial to scholars, industries, and communities to tackle such issues to improve our present and future life.

Since 2009, UiTM Melaka Branch has successfully become the organizer for this innovation exposition. We are not only successful in organizing the exposition, but I would proudly say that we have also successfully embarked on commercialized products. With the number of participants for this year's exhibition, we believe that more commercialized products will be produced in line with the theme for this year, "Road to Commercialisation".

This exposition would never happen without dedication, teamwork, and commitment. A round of applause should be given to the committee teams as the backbone of this exposition. Their hard work, effort, and time made this exposition possible.

Finally, I would like to conclude this brief remark by thanking all the participants and stakeholders for joining the exposition, we hope that this collaboration never ends here.

Thank you.

DR. NUR HAYATI BINTI ABD RAHMAN
Deputy Rector Research & Industrial Linkages
Universiti Teknologi MARA (UiTM) Cawangan Melaka

It is a great pleasure to welcome all the participants and presenters to the Virtual Melaka International Intellectual Exposition (VMIIEX 22). I am delighted that through this periodic event, we managed to bring together scholars and professionals from various fields to engage through this virtual platform where ideas and breakthrough are discovered and leveraged for commercialization potential.

Since 2009 UiTM Cawangan Melaka has held twelve Invention and Innovation Design competitions and this year we are very honoured to have the second year of VMIIEX organized in digital platform. This has proven that despite the global challenges due to the recent pandemic, it is never an issue for UiTM Melaka to continuously organize this yearly prestigious event and to support the ministry's aspiration in leveraging creativity and innovation in the new norm.

VMIIEX 22 is organized with no sole objectives of accomplishing the University's KPI but instead we are determined to make this programme as the place to help heighten commercialization collaboration in research and innovation with the industry and community through joint exhibitions from various external organizations.

Our aspiration is to also provide exposure and opportunities to academic staff as well as students from public and private universities to engage in direct excellent scholarly activities with the industry and community through activities that can be measured and assessed. As for the Research and Industrial Linkages Office of UiTM Melaka, this exhibition is seen as the platform that can encourage active collaboration and knowledge transfer with industries; objectively to support various activities that will benefit all stakeholders from the various government agencies, local and international universities, industries and communities.

Through the theme of "Road to Commercialization" this year, V-MIIEX 22 is committed to have this event as a boulevard to inspire and cultivate creativity and innovation to the numerous levels of inventors through exposure on latest technologies, astonishing ideas and creative designs with great potential to be commercialized. For this year, we proudly introduce a special category which is the "Endemic Challenge" as the provision to the government of Malaysia's goal of moving towards the endemic.

To ensure that the competing products in this exhibition is not exclusively for the purpose of competition, V-MIIEX 22 is dedicated for the commercialization of highly potential innovation products, which is attained through its active collaboration with tailored needs industries. The commercialization effort was not for income generation purpose only but it aimed to spearhead the development of quality products in line with industrial needs and community benefit.

Therefore, it is a great honour for me on behalf of the Research and Industrial Linkages Office as well as the organizing committee to have all participants in this competition and I would like to express my highest gratitude especially to the Rector of UiTM Melaka and all strategic partners and sponsors for supporting the event.

To finish, I sincerely wish VMIIEX 22 a remarkable success. I believe that this will not be the only collaboration between UiTM Melaka and the respective partners and linkages, but a beginning of a long and fruitful cooperation in future.

Thank you very much.

road to commercialisation...

WAN HASMAT WAN HASAN
Project Director V-MIIEEX 2022
Universiti Teknologi MARA (UiTM) Cawangan Melaka

Assalamualaikum and Warmest Greetings.

It gives me an enormous pleasure, on behalf of the organizing committee to welcome all participants and presenters to the Virtual -Melaka International Intellectual Exposition 2022 (VMIIEX '22) with the theme "Road to Commercialisation". We are honoured and glad to welcome all participants to this biennial event.

This is the second time that we have organized this biennial event virtually. V-MIIEEX 22 is an innovation competition, in which, innovation products, ideas and systems related to various science and technological fields are exhibited as a solution for the presented problems.

V-MIIEEX22 expectantly will be a platform that gathers experts from academies, scientists, and researchers, locally and internationally, to contribute towards the growth of scientific and technological knowledge in each participant's specialisation and expertise.

The competition also serves as a platform to give fresh exposure to the various level of inventors, as well as to encourage the culture of innovation design focused on latest technologies and related to new norms technologies and inventions due to COVID-19.

V-MIIEEX 22 is also hoped to be an avenue for gathering and disseminating the latest knowledge on ideas and acquisition of innovation among the participants. It is hoped that the competition will be able to open the mind of the participants towards latest technologies and design. It is also in line with the government's aspiration to encourage innovation activities in Malaysia.

As a final note, I would like to congratulate my fellow committee members for their tremendous effort, which have been critical to the event's success. In addition, I would like to thank our co-organizer, event sponsors and supporters. Optimistically, we wish that all new knowledge that is discovered, invented, or innovated will drive towards our future sustainability.

Thank you.

ABOUT V-MIIEEX

The world after COVID-19 is unlikely to return to the world that was. Despite the challenging pace during the pandemic, the strong rebound is expecting in this exciting year 2022. Malaysia is welcoming the great prospects ahead with positive impact on the country's economy and development. Hence, the hope for greater opportunities motivates for more creative thinkers to come up with innovative ideas that can be put forward to be harnessed to overcome similar problems in the future. V-MIIEEx 2022 is one of these platforms which contribute relevant ideas that could help communities of all walks of life cope with this pandemic.

UiTM has identified research, innovation, and commercialization to be among the core components and strategic effort towards becoming a well-known and prominent university. Aside from realizing this goal, with these components and efforts, fostering the development of knowledge, generating financial stability of the university, and producing knowledgeable academicians are also potentially achievable.

By having invention and innovation competition yearly, UiTM Cawangan Melaka is confident that it could further enhance creative and innovative abilities among staff and students. In support of the government notion which upholds the importance of innovation, UiTM Cawangan Melaka has taken the initiative of organising the Virtual Melaka International Intellectual Exposition (V-MIIEEx).

In instigating and nurturing the continuous culture of inventing and innovating, this event is an ideal platform for lecturers, administrative staff, students, and the public to showcase and commercialize their products or prototypes as well as novel ideas. The first IID which was held nationally in UiTM Cawangan Melaka in 2009, has successfully gathered and displayed more than 37 inventions and innovations. Accordingly, to continue this strong passion towards inventing and innovating, the IID competition should be continued and celebrated.

With that, the Division of Research and Industrial Linkages will be organising its 12th IID competition, the Virtual - Melaka International Intellectual Exposition (V-MIIEEx 2022) with the theme, 'Road To Commercialisation'. V-MIIEEx 2022 hopes to welcome 200 competing products to be showcased and commercialized, at the same time, attract attention of related and matching industry.

Objectives

1. Encourage and instill passion towards inventing and innovating among UiTM Cawangan Melaka staff, students and academicians of local and international higher education institutions;
2. Highlight distinguished talents of skillful inventors and exhibit intellectual products, inventions and innovations among local and private tertiary institutions, government and private agencies, including international participants;
3. Become an effective Business Matching platform for participating research products, matching industries and partnering government agencies;
4. Recognise, inspire and promote invention and innovation products to be patented and commercialized;
5. Increase passion towards inventing and innovating through research and boost interests of government and non-government agencies to obtain consultancy services from a line up experts of higher education institutions and UiTM Cawangan Melaka.

Lluvia Raincoat Backpack

Abstract

LLUVIA is delighted to be a pioneer in the development of a new and distinctive product that will surely influence the bag and raincoat industry's trends. This product is named after the company's name, which translates to "rain" in Spanish. Our product combines two products into one, namely a bag and a raincoat. It's been created to work together, with the bag acting as a tool for carrying our possessions and the raincoat acting as a lifesaver when it's raining. The company illustrates how combining two products into a single item might save money over buying two items individually. Malaysia's weather may be fickle. Malaysia is, without a doubt, a hot nation due to its location on the equator (Garis Khatulistiwa). Because of our high humidity, big rains arrive at the most inconvenient times. In the morning, a dazzling sky can be seen. However, as time passes, the sky gradually darkens. People do not bother bringing their umbrellas in the morning since the sky appears to be so brilliant. Raincoat backpack is another alternative for people to avoid bad weather. Our raincoat is made from polyester microfiber material, a special waterproof coating which makes it perfect to protect us from rain. Raincoat backpack not only protects ourselves but also our belongings such as laptops, tabs and smartphones. Imagine the chaotic hustle when you are rushing to go to class or office and both of your hands are already full with carrying items that may not be suitable to be kept in the bag. People frequently forget to bring their umbrellas, or they may believe that taking an umbrella adds to the load of whatever they are carrying at the time. Problems may be solved in the blink of an eye now that *Lluvia* Raincoat Backpack has hit the market.

Keywords: bag, raincoat, waterproof, weather

1. INTRODUCTION

Rain is what keeps the country green and beautiful. Malaysia would be a vast desert if it did not receive rain. However, the rainy season, or monsoon season, affects the climate on the eastern side of the peninsula from mid-October to the end of March. During these months, the weather is typically severe. The worst scenario that one can imagine is it may result in flooding in certain areas. A waterproof bag itself is not sufficient enough to cater what our consumer needs as they not only need protection for their bags and the belongings in it, but they also have to cover themselves to avoid catching a cold. *Lluvia* is delighted to be a pioneer in the development of a new and distinctive product that will surely influence the bag and raincoat industry's trends. Our product combines two products into one, namely a bag and a raincoat. It's been created to work together, with the bag acting as a tool for carrying our possessions and the raincoat acting as a lifesaver when it's raining. Example; Accounting is important to businesses in dealing with their daily transactions. It helps

businesses to plan and manage financial matters more effectively. However, many perceive accounting as a very difficult process due to its technical difficulties and this is very common to the small businesses. There is also no legal obligation for them to keep the books of accounts and being audited. Yet, accounting information is very important for small businesses to know their financial status, such as whether the business is making profit or running at loss. They may also identify their cash flow, cost of production, assets and liabilities.

2. OBJECTIVE

The objective of *Lluvia* is to focus on form as well as function. *Lluvia* offers a wide selection of novel waterproof backpacks designed to protect all your essentials from wet elements. The strong minimalist references together with the unique *Lluvia* fabric and design is what makes *Lluvia* a true everyday icon. The designs are created to fit with any style and be complementary to your existing wardrobe.

3. NOVELTY & INVENTIVENESS

Lluvia Backpack is developed to facilitate a targeted group of people such as students and adults where they usually carry a bag. These people tend to be exposed to the outdoor environment frequently where they have the probability to be soaked in the rain compared to others. Hence, a raincoat backpack is an ideal choice to solve this problem.

4. PRACTICALITY & USEFULNESS

This lightweight and compact waterproof backpack cover securely fits most any backpack, assuming that your pack and its contents stay clean and dry. Rugged drawstring and cord lock attachment method assures a tight and secure fit. Including a waterproof drawstring sack for stowing will also prevent a stowed wet *Lluvia* from leaking onto, or into your things. Our raincoat is made from polyester microfiber material, a special waterproof coating which makes it perfect to protect us from rain. Raincoat backpack not only protects ourselves but also our belongings such as laptops, tabs and smartphones.

5. CONCLUSION

It is important for a business of any size to keep well-organized and up-to-date products in this era. *Lluvia* benefits are to ease the burden on customers from bringing the umbrella in this weather. People frequently forget to bring their umbrellas, or they may believe that taking an umbrella adds to the load of whatever they are carrying at the time. Problems may be solved in the blink of an eye now that *Lluvia* Raincoat Backpack has hit the market.
