INDUSTRIAL TRAINING REPORT

Executive Summary

To completed my Bachelor's degree, I am honoured to carry out my internship as a Assistant in the Account and Finance Department, I've gained invaluable insights and practical experience while pursuing my Bachelor's in Business and Management in finance. Throughout this tenure, my role primarily involved supporting various financial tasks, including data analysis, report preparation, and assisting with financial transactions.

These responsibilities honed my skills in financial analysis, budgeting, and report generation. Working within the automotive industry exposed me to a dynamic and fast-paced environment. This experience enhanced my understanding of the industry's unique financial difficulties, such as cost analysis, revenue streams, and financial planning specific to automotive manufacturing. Moreover, my time at Isuzu Automotive Corporation Malaysia allowed me to refine my communication and teamwork skills.

The objective of my internship was to gain hands-on experience in financial analysis, reporting, and budgeting within the automotive industry. This included developing practical skills, understanding industry-specific financial processes, and fostering teamwork and communication in a professional setting. Collaborating with cross-functional teams to achieve financial objectives highlighted the significance of effective communication and collaboration in a corporate setting. The internship provided a hands-on understanding of financial systems and software commonly used in the industry, enhancing my proficiency in tools vital for financial analysis and reporting.

Overall, this internship has been a essential opportunity, enriching my academic knowledge with practical insights. It's provided me with a strong skill set, incorporating financial analysis, reporting, teamwork, and industry-specific expertise, which I'm excited to carry forward as I progress in my academic and professional journey in finance and business management.
