ACKNOWLEDGEMENT

“In the name of ALLAH S.W.T. the Most Beneficent and Most Merciful”

Alhamdulillah, with all greatest gratitude and appreciation to dear God, ALLAH Almighty, I am really grateful to Allah S.W.T for giving me strength, idea and opportunity to complete my final year project as a fulfillment of the requirements for the course ITS 650 (Project). I would like to acknowledge people who are involved in giving helps and supports throughout my research.

First of all, my special thanks go to my supervisor Mr. Shamsudin Md Sarif for his advices, support, willingness and patience in helping me to complete my thesis. I also want to thanks to the lecturer who has taught ITS600 and ITS650 which is Madam Nor Diana binti Ahmad for help and guidance me from the first class until end of presentation. Besides that, I also would like to express my thanks to staff of Atlantic Express and others who had spent their time to give me information for my thesis.

I also would like to express my thankful to my beloved parent Mr. Shaari and
and my family for their support during my hard times especially while I'm completing this thesis and always pray for my success. I also want to thanks my friends for their help and encouragement for me to complete this thesis.

Last but not least, thanks also to all that are not listed above for their help, support and encourage me until this thesis completed. Thanks to all of you.

ABSTRACT

The researchers are motivated to develop Online Booking Wedding Invitation Card because currently Atlantic Express Sdn Bhd Company still used the manually booking form to booking in the wedding card. The customer must come to the shop to make the booking and it take a time to the customer.

The aim of this project is to develop Online Booking Wedding Invitation Card using Rapid Application Development (RAD). For this system researchers chooses one of the RAD methods which is prototyping technique. Prototyping technique are apply at design phase which is the prototype will build and demonstrate to the end user or stakeholder. And any changes can be made based on user need. We can refine the process that development process became easier because we a ready have guideline to develop the system which is developer can follow the prototype that has been agreed.

There are three main objectives have been achieved, firstly identify the requirement of Online Booking Wedding Invitation Card System. Second is to design Online Booking Wedding Invitation Card System and lastly to develop and demonstrate of Online Booking Wedding Invitation Card System.

Several methods have been applied for this research project which is interviewing the stakeholder to gather requirement and review related journals and articles for literature review. As the product, the system can help the administrator and moderate works and also can improve the booking wedding card and also the quality of works.

CHAPTER 1

INTRODUCTION

1.1 Introduction

This chapter will describe the overview of the research which are the project background and problem statement that show the need of the research. It also includes the objective, problem statement, research question, scope, research element and also the significance of the research.

1.2 Background Study

Nowadays, booking online is very popular among people. More people prefer to use internet as their main source of information, to buy everything using booking online, make the payment using internet, find the sources, and get news and linking with others. According to Abraham (2008), he said with online booking software the customer knows the information was correctly sent to the other party. There are no doubts or questions asked. Online booking is simply the most effective way to conduct this type of business.

When someone tell people about the wedding, they are not only announcing a celebration, but the beginning of two life's in common therefore invitations are the reflection of this and they are extremely important as they give others an perception into what the wedding will be. As a couple, wedding day is one of the most important and special days in lives. That is why it is important that the
