**January 2017**

## **ACKNOWLEDGEMENT**

Alhamdulillah, praises and thanks to Allah S.W.T of His Almighty and His utmost blessings, I was able to complete this research within the time duration given. Firstly, I would like to express my deepest gratitude to my supervisor, Dr. Norlela Samsudin for her excellence guidance, caring and patience in order to complete this research. Besides that, I also want to give special acknowledgement to my CSP650 lecturer, Dr. Hasiah Binti Mohamed upon all of her idea and guidance in completion of this project. Without the help and guidance from both of them this project may not be completed successfully.

Special appreciation also goes to my beloved parents and my family members for their cooperation, motivation and support during the completion of this project. Without their support, maybe I could not finish this research successfully. Last but not least, I would like to give my personal gratitude to my dearest friend for their contribution in supporting my work and help me during the final year project progress. Their contribution helps me a lot in order to complete my final year project.

## ABSTRACT

In Bajet 2016, it is stated that the government cuts the universities budget. This budget's cut affected the staff training in Universiti Teknologi Mara (UiTM). Even though the budget has been cut, the training still needs to go on. To overcome this problem, UiTM needs a system that provides training through online. Therefore, Staff E-Training System using Learning Management System Emphasize Video Education (S-Training) had been developing to overcome this problem. S-Training is an e-learning system that uses video and quizzes as the main content through online system. In order to develop this system, the Waterfall Model has been use as guidance. This model has five phases which are Requirements, Design, Implementation, Testing and Documentation. Finally, S-Training had been tested and evaluated by 30 respondents. The evaluation has made based on interface, content, consistency, efficiency, user satisfaction and this system theory, Learning Management System. The result of evaluation shows that the highest mean based on user feedback is user satisfaction which is 4.40 (SD = 0.50). As a conclusion, S-Training is expected to help instructor in conducting the training and evaluating the staff performance in training.

# TABLE OF CONTENTS

<b>CONTENTS</b>	<b>PAGE</b>
<b>SUPERVISOR APPROVAL</b>	i
<b>STUDENT DECLARATION</b>	ii
<b>AKNOWLEDGEMENT</b>	iii
<b>ABSTRACT</b>	iv
<b>TABLE OF CONTENTS</b>	v
<b>LIST OF FIGURES</b>	vi
<b>LIST OF TABLES</b>	vii

## **CHAPTER ONE: INTRODUCTION**

1.1	Introduction	1
1.2	Problem Statement	2
1.3	Objective	3
1.4	Scope	3
1.5	Significance	4
1.6	Gantt Chart	4
1.7	Project Framework	6
1.8	Conclusion	7

## **CHAPTER TWO: LITERATURE REVIEW**

2.1	Introduction	8
2.2	Learning Management System (LMS)	10
	2.2.1 Introduction	10
	2.2.2 Benefits of LMS	10
	2.2.3 Components of LMS	11
2.3	Video Education	14
	2.3.1 What is Video Education?	14
	2.3.2 Benefits of Video Education	15
	2.3.3 Implementation of Video Education	16
2.4	System Development Model	16
	2.4.1 Waterfall Model	17
	2.4.2 XP (Extreme Programming)	17
	2.4.3 SCRUM	18
	2.4.4 Rational Unified Process	18

2.4.5 Dynamic System Development Method (DSDM)	18
2.5 Overview of Waterfall Model	19
2.6 Existing System as LMS System	20
2.6.1 i-Learn UiTM	20
2.6.2 OpenLearning-MOOC	21
2.6.3 Edmodo	22
2.6.4 Differentiation between Existing System	23
2.7 Implication of Literature Review in the Project Development	24
2.8 Conclusion	25

### **CHAPTER THREE: METHODOLOGY**

3.1 Introduction	26
3.2 Phase 1: Planning and Analysis	28
3.3 Phase 2: System Design and Development	29
3.3.1 System Design	29
a) Process Flow Diagram	29
b) Context Diagram	31
c) Data Flow Diagram	32
d) Entity Relationship Diagram	35
e) Interface	37
3.3.2 System Development	38
a) Requirements	38
i. User Requirements	39
ii. System Requirements	40
b) Design	41
c) Implementation	41
d) Testing	41
e) Documentation	42
3.4 Phase 3: System Testing	42
3.4.1 Expert Evaluation	44
3.4.2 System Testing	46
3.5 Phase 4: Documentation	48
3.6 Conclusion	48

### **CHAPTER FOUR: RESULT AND DISCUSSIONS**

4.1 Introduction	49
4.2 Business Process Improvement	49
4.3 Staff e-Training System Using Learning Management System Emphasize Video Education	50
4.3.1 Instructor	53
4.3.2 Staff	55
4.3.3 Administrator	57
4.4 System Testing	58
4.5 Expert Evaluation	59
4.6 User Evaluation	62
