EXECUTIVE SUMMARY

Math is Easy 3.0 was conducted by the College of Computing, Informatics, and Mathematics at UiTM Cawangan Negeri Sembilan, Kampus Kuala Pilah for one day on June 21, 2024, with the session lasting two hours. The workshop aims to enhance students' mathematical proficiency through interactive learning sessions. Targeting pre and diploma students, the workshop focuses on key areas such as problem-solving, critical thinking, and practical applications of mathematical concepts. The participants included those enrolled specifically under codes Mathematics for Pre-Diploma I (MAT013), Basic Mathematics for Pre-Science (MAT083), Intermediate Mathematics for Pre Science (MAT086), Business Mathematics (MAT112), and Pre-Calculus (MAT133). Through this comprehensive workshop, students will develop the skills and strategies to tackle exams effectively and achieve their academic goals.

INTRODUCTION

Math is Easy 3.0 is a specialized workshop designed to help students prepare effectively for their final exams. It provides guidance on exam techniques, time management, and strategies for answering different types of questions, with a focus on maximizing performance under exam conditions. As students face increasing academic pressure, this workshop aims to equip them with the tools and confidence to excel in their final exams. The workshop is structured to give students insights into common exam pitfalls and ways to overcome them, ensuring they can demonstrate their full knowledge during the exam.

RESULTS /ACHIEVEMENTS

The workshop is designed to improve students' exam performance through focused preparation and strategy development. Upon completing the workshop, students can expect the following key outcomes:

- a) Improved understanding of exam structure.
- b) Enhanced time management skills.
- c) Mastery of answering techniques.
- d) Increase confidence in tackling exams.
- e) Ability to maximize marks.
- f) Identification of personal weaknesses.
- g) Better stress and exam anxiety management.
- h) Improved academic results.

By focusing on these outcomes, the workshop ensures that students are well-prepared for their exams and equipped with lifelong skills in test-taking and academic success.

CONCLUSION

Students leave the workshop with increased confidence, better exam preparedness, and the ability to approach their exams with a clear and structured mindset. Ultimately, the workshop aims to transform exam-related stress into an opportunity for success, helping students achieve their academic potential and improve their final exam outcomes. With continued practice and application of the strategies learned, students are expected to see significant improvements in their results, fostering long-term academic growth and success.
