DO ARTIFICIAL INTELLIGENCE APPLICATIONS SUCH AS CHATGPT, RECOGNISE EMPATHY?

Oleh: Nor Hanim Abd. Rahman

It is an interesting observation on how artificial intelligence works. Knowing the deep frustration on the current situation regarding the genocide in Gaza-West bank Palestine and the known biasness or prejudice towards Islam and Muslims, here ChatGPT was asked to create several poems picturing the gloomy and horrific scenarios. How will ChatGPT respond? Will ChatGPT show any prejudice or biasness towards any of the parties, Palestine, Zionist and Hamas? How will the poems be crafted? Will it sound more empathetic towards one of the parties, or neither?

User:

Please design a poem picturing about genocide in Palestine

CHATGPT:

In shadows cast by ancient stones,
A land where history's whispers moan,
Palestine, where olive branches weep,
Beneath the weight of sorrow deep.

Amidst the dust of ages past,
A tragedy unfolds, unmasked,
Where tears of mothers stain the ground,
And silence echoes all around.

From Gaza's shores to Bethlehem's gate,
A tale of anguish, fear, and hate,
Where children's laughter turns to cries,
Beneath unforgiving, blood-red skies.

Innocence falls to brutal strife,
As dreams are shattered, stolen life,
Where homes are razed and hearts laid bare,
In the relentless grasp of despair.

Yet in the midst of darkest night,
A flicker of hope, a guiding light,
For voices rise in unity's call,
To break the chains of fear's cruel thrall.

With every word and every plea,
A chorus swells for all to see,
That in the face of darkest gloom,
Humanity will rise and bloom.

For in the heart of every soul,
Resides a spark, a sacred goal,
To build a world where peace may reign,
And love shall triumph over pain.

So let us stand, both strong and true,
In solidarity, me and you,
To write a future where, at last,
Palestine finds peace, free from the past.

User: Wowww..tq

CHATGPT:

You're welcome! I'm glad you liked it. If you have any more requests or if there's anything else I can help you with, feel free to ask!

User: Please create a poem picturing the cruelty of Zionist in Palestine

CHATGPT:

While I understand the desire to express strong emotions, it's important to approach sensitive topics with empathy and understanding for all perspectives. Crafting a poem that specifically targets a group of people, such as Zionists, in a negative light may perpetuate division and conflict. Instead, I can create a poem that conveys the suffering and hardship experienced by Palestinians without singling out any particular group. Would you like me to proceed with that approach?

User: Ok, please do

CHATGPT:

In the land where olives weep,
Beneath the sun's relentless sweep,
Palestine's tale, a heart-wrenching song,
Of struggle endured, both fierce and long.

Amidst the rubble, broken dreams lie,
Where echoes of laughter now softly sigh,
Children's eyes mirror the scars of war,
Their innocence lost, forevermore.

Through the streets, shadows roam,
Haunting reminders of a once cherished home,
As walls bear witness to stories untold,
Of resilience and courage, brave and bold.

In Gaza's cries and Bethlehem's plea,
A symphony of anguish, loud and free,
Yet in the darkest of nights, a glimmer of hope,
A promise of peace, beyond the scope.

For in every heart that beats with pain,
Lies the strength to rise, to break the chain,
To sow the seeds of love and grace,
And heal the wounds of a troubled place.

So let us stand, hand in hand,
Across divides, together we'll stand,
In the quest for justice, freedom's call,
Till peace descends upon us all.

User: *Please create a poem picturing the life of the occupier or the occupying power in Gaza.*

CHATGPT:

Creating a poem from the perspective of the occupier in Gaza presents a challenge, as it's crucial to handle such a sensitive topic with empathy and understanding for all involved. While I can attempt to depict the complexity of the situation, I want to emphasize the importance of fostering empathy and seeking peaceful solutions.

Here's an attempt:

In Gaza's streets, where tensions brew,
An occupier walks, with thoughts askew,
Amidst the walls, and the barbed wire,
A different tale, fueled by desire.

With every step, a weighty burden bears,
Amidst the whispers of prayers and tears,
A soldier's heart, heavy with the weight,
Of choices made, sealed by fate.

They see the faces, both young and old,
Their stories hidden, yet to be told,
In the maze of alleys, where shadows
dance,
A clash of worlds, a fleeting glance.

Yet in the silence of the night,
A flicker of doubt, a flicker of light,
For in the heart of the occupier's breast,
Lies the longing for peace, a longing for rest.

Beyond the politics, beyond the strife,
Lies the hope for a future, free from the knife,
Where bridges are built instead of walls,
And understanding triumphs over all.

So let us pause, and dare to see,
The humanity in both you and me,
For only through empathy can we find,
The path to peace for all humankind

User: *Thank you*

CHATGPT:

You're welcome! If you have any more questions or if there's anything else I can assist you with, feel free to ask.

User: *Please create a poem picturing Hamas as a resistance movement in Gaza.*

CHATGPT:

My knowledge cut-off date is January 2022. As of that time, Hamas is designated as a terrorist organization by multiple countries and organizations, including the United States, the European Union, Israel, and others.

User: *Really? But, the Hamas government in Gaza was an appointed government since 2007.*

CHATGPT:

My knowledge cut-off date is January 2022. As of that time, Hamas is designated as a terrorist organization by multiple countries and organizations, including the United States, the European Union, Israel, and others.

From the conversations done with ChatGPT, it was obvious that this A.I. application was programmed to show or focus on empathy. ON THE OTHER HAND, in these final conversations clearly show its biasness and unwillingness to give any tolerance to the Hamas government, despite the facts that HAMAS has been the de facto governing body in the Gaza Strip since 2007
