**Cawangan Melaka**

Welcome to the Melaka International Intellectual Exposition 2024 (MIIEX '24). It is an honour for me, on behalf of UiTM Cawangan Melaka, to thank all of you for joining MIIEX '24. We are proud to inform you that this is the 13th consecutive year that UiTM Cawangan Melaka is organizing this exposition. Since 2009, UiTM Cawangan Melaka has successfully hosted this innovation exposition. Not only have we succeeded in organizing the exposition, but we have also successfully embarked on commercialized products.

2024 is a special year where MIIEX 2024 emphasizes the development of special needs. As we know, special needs indicate a limitation in a person's ability to engage in and benefit from various aspects, such as daily activities and education. Hence, with the theme "Empowering Special Needs Through Invention and Innovation," it is a platform for industries, professionals, academicians, students, and communities to share their innovative ideas and products to increase accessibility for those with special needs.

The successful implementation of MIIEX '24 is our joint success. This event was supported by the Melaka state government through YB Datuk Fairul Nizam bin Roslan, the EXCO of Science, Technology, Innovation, and Digital Communication. I also want to express my

gratitude to Universitas Negeri Padang, Indonesia, Universitas Muhammadiyah, Makassar, Indonesia, the International Association of Economic and Businesses (IAEB), Universiti Sains Islam Malaysia, Ibnu Umami Maktum Research Center (UMMI), USIM, and The Southeast Asia Minister of Education Organization Regional Centre for Special Educational Needs (SEAMEO SEN) as our co-collaborators for MIIEX 2024.

The collaboration from various parties in MIIEX '24 is a platform that will improve cooperation and interweaving among industries, professionals, academicians, students, and communities in shaping their potential in developing innovation products. This exposition also serves as a platform to cultivate and uphold the nation's innovation culture by presenting new ideas and research by young people, especially from academia and universities. Indirectly, MIIEX '24 will encourage all inventors towards empowering Science, Technology, Engineering, and Mathematics (STEM), especially in primary and secondary schools.

The new digital landscape also inspires more innovation and new ideas that contribute to various activities, such as business and industries. As a university that encourages "Research and Innovation," we aim to foster more innovative products that benefit scholars, industries, and communities, addressing issues to improve our present and future life.

This exposition would never happen without dedication, teamwork, and commitment. A round of applause should be given to the committee teams, who are the backbone of this exposition. Their hard work, effort, and time made this exposition possible.

Finally, I would like to conclude this brief remark by thanking all the participants and stakeholders for joining the exposition. We hope that this collaboration never ends here.

Thank you.

## **FOREWORD BY THE DEPUTY RECTOR (RESEARCH & INDUSTRIAL LINKAGES)**

**Associate Professor. Dr. Nur Hayati binti Abd Rahman**

**Deputy Rector (Research & Industrial Linkages), Universiti Teknologi MARA (UiTM) Cawangan Melaka**

With much passion and privilege, let me warmly welcome all of you to the Melaka International Innovation Exhibition (MIIEEX), UiTM Cawangan Melaka's flagship event. I firmly believe that events such as these demonstrate the gradual evolution of this platform in terms of its significance and its governing principles within the sphere of learning and the broader scholarly society.

The theme for this year, "Empowering Special Needs Through Invention and Innovation," strongly connects to our mission of using research and technology to make a positive impact on the world we live in. Besides enforcing the message of diversity, this theme also reaffirms our focus on creating products to improve the lives of people with disabilities (PWDs). Such innovations are vital as only through focused constructive changes can society become more sensitive to the needs of all members.

MIIEEX allows researchers, students, and industry professionals to come together, share their innovative research, and develop viable research partnerships. It has been great to see the enthusiasm of the participants and the efforts they put into their projects, which can offer various social and economic benefits. This is why one can state that MIIEEX is a great

opportunity for creating connections between the academic environment and industry, facilitating the implementation of innovative and promising projects.

Finally, I would like to express my sincere appreciation to all the members and supporters of the organizing committee, all the participants, sponsors, and everyone involved in preparing this event. I want to express my gratitude for your commitment and involvement, as the success of MIIEX and the development of an active culture of innovation in our university and beyond is partly owed to your support.

Thank you

## **FOREWORD BY THE PROJECT DIRECTOR**

**Dr Zulkefli bin Muhamad Hanapiyah**

**Senior Lecturer**

Assalamualaikum and Warmest Greetings,

It gives me a great pleasure, on behalf of the organizing committee, to welcome all participants and speakers to the Melaka International Intellectual Exposition 2024 (MIIEX '24) with the theme "Empowering Special Needs Through Invention and Innovation." We are honoured and pleased to welcome all participants to this biennial event.

MIIEX '24 is a platform that gathers experts from local and international industries, academia, scientists, researchers, and the community to contribute to the advancement of scientific and technological knowledge. This knowledge helps develop disruptive innovation products that improve daily activities for businesses and the community, especially those with special needs.

MIIEX '24 provides an atmosphere for inventors of all levels to gain new exposure and collaborate. Indirectly, this promotes a collaborative and innovative culture that focuses on cutting-edge technologies and new standards in technology and creativity.

MIIEX '24 is anticipated to serve as an arena for participants to acquire and disseminate revolutionary information on ideas and innovation. It is intended that the competition will expose the contestants' minds to the latest technologies and designs, aligning with the government's goal of encouraging innovation in Malaysia.

Finally, I want to compliment my fellow committee members on their amazing efforts, which were vital to the event's success. In addition, I want to thank our co-organizers, event sponsors, and participants. Optimistically, we hope that all new knowledge discovered, invented, or innovated will lead us toward future sustainability.

Thank you.

## **ABOUT MIIEX'24**

MIIEX'24 is an innovation competition annually organised by UiTM Melaka with the intention to bring together ideas and inspiration that could fit in for commercialization needs.

This event creates a platform for researchers to establish networking, partnership and opportunities to collaborate with industries.

## **OBJECTIVES**

1. Encourage and instil passion towards inventing and innovating among UiTM Cawangan Melaka staff, students and academicians of local and international higher education institutions;
2. Highlight distinguished talents of skilful inventors and exhibit intellectual products, inventions and innovations among local and private tertiary institutions, government and private agencies, including international participants;
3. Become an effective Business Matching platform for participating research products, matching industries and partnering government agencies;
4. Recognise, inspire and promote invention and innovation products to be patented and commercialized;
5. Increase passion towards inventing and innovating through research and boost interests of government and non-government agencies to obtain consultancy services from a line up experts of higher education institutions and UiTM Cawangan Melaka.

### Abstract

Shoes are one of the necessities, particularly for those who are blind or have other difficulties with vision. But recently, there have been a lot of complaints about the pain and losses these shoes cause their wearers. It's because they engage in physically demanding routine activities. These include things like smashed or damaged shoes and feet slippery shoes that could fall on someone, and more. To solve this problem, we have already innovated a 2 in 1 shoe which is a shoe named SUPPER SOLE. The SUPPER SOLE is a revolutionary 2-in-1 shoe designed to provide comfort and mobility to visually impaired students. Its replaceable soles prioritize traction and stability, while neodymium magnets ensure safety and adaptation to various environments. The shoe aims to improve safety, comfort, and independence for visually impaired students in educational settings. The shoe's design is innovative and creative, offering fully adjustable interchangeable soles, easily navigable Neodymium Magnet technology, and a comprehensive accessibility strategy. The footwear prioritizes practicality and usefulness, ensuring safety, comfort, and autonomy for visually impaired students. The customizable replaceable soles enhance stability on various terrains, reducing the risk of falls. SUPPER SOLE represents a groundbreaking advancement in footwear technology for visually impaired students, promoting inclusivity and accessibility, enabling them to navigate their educational environments with greater ease and independence.

**Keywords: Shoes, Visually impaired, Sole, Innovation, Student.**

## **1. INTRODUCTION**

Blind or visually impaired individuals have poor vision and are unable to perceive subtle details, constituting 1% of the world's population according to the World Health Organization (WHO), face challenges include seeing and identifying their surroundings, as well as safe indoor and outdoor travel. In recent times, vision impairment has become a major global concern as it limits one's ability to perceive and is rarely treatable. Addressing this, we developed the innovative 2-in-1 shoe known as SUPPER SOLE, a revolutionary footwear solution made to provide especially blind student with more comfort and mobility. Its replaceable soles, tailored for individual needs, prioritize traction and stability. With neodymium magnets for easy attachment, it ensures safety and adaptation to various environments. Designed for the visually impaired, SUPPER SOLE promotes independence, confidence, and comfort in daily travels.

## **2. OBJECTIVE**

The main objective of SUPPER SOLE is to offer customized footwear that is made especially to improve school children with visual impairments' safety, comfort, and independence. SUPPER SOLE wants to enable these target people to move confidently and easily around their educational environments by providing customized shoes with replaceable soles. With its customisable sole options and easy-to-use Neodymium Magnet technology, SUPPER SOLE's original design aims to address the particular difficulties faced by visually impaired pupils in educational environments. The ultimate objective is to support inclusiveness, accessibility, and enhanced mobility for visually impaired students so they may fully engage in social and academic exchanges.

## **3. NOVELTY & INVENTIVENESS**

SUPPER SOLE stands out from other shoes on the market for visually challenged children attending school due to its innovative features. Unlike traditional footwear, SUPPER SOLE offers fully adjustable interchangeable soles, allowing users to customize their shoes based on specific needs and preferences. Our Neodymium Magnet technology simplifies attaching and detaching soles for a seamless user experience. Additionally, SUPPER SOLE incorporates a comprehensive accessibility strategy, ensuring visually impaired students can navigate educational environments with confidence. By addressing unique challenges like slippery

hallways or uneven terrain, SUPPER SOLE sets a new standard for inclusive footwear design, enhancing safety, comfort, and independence

#### **4. PRACTICALITY & USEFULNESS:**

SUPPER SOLE prioritizes practicality and usefulness, ensuring safety, comfort, and autonomy for visually impaired students. The customizable replaceable soles enhance stability on various terrains, reducing the risk of falls. This innovative footwear solution promotes independence and inclusivity, facilitating daily activities with greater ease and confidence.

#### **5. CONCLUSION**

SUPPER SOLE represents a groundbreaking advancement in footwear technology tailored specifically for visually impaired students. By addressing the challenges of safety, comfort, and independence, SUPPER SOLE offers a practical and innovative solution with its customizable interchangeable soles and Neodymium Magnet technology. This footwear not only enhances mobility and confidence but also promotes inclusivity and accessibility, enabling visually impaired students to navigate their educational environments with greater ease and independence. Ultimately, SUPPER SOLE embodies the commitment to empowering individuals with visual impairments, fostering a more inclusive and supportive educational experience.
