APRIL 2003

ACKNOWLEDGEMENT

First of all, I would like to take this opportunity to express my special thanks to Allah S.W.T for His blessing and strength rendered to me to complete my final project.

I would like to offer my special thanks to my project advisor, En. Wan Mohd Nazri Bin Wan Abd Rahman of his guidance and also for helping me at every phase of the study. He is so generous in lending me helping hand and showed me the correct way of doing my work. I would like to express my most sincere thanks to him.

Lastly, I also extend my appreciation to those who are involved either directly or indirectly in completing this project. I believe, without their helps, I would not be able to complete this final project.

ABSTRACT

RECREATIONAL PARKS IN STATE OF PAHANG

By

ANUAR BIN ISMAIL

APRIL 2003

Recreational park is an area where the both flora and fauna in the forest has been preserved. It's also to be an area for water catchments, agriculture, environment stability, minimization of damage water and forest. This place is to be main asset in the eco – tourism of Pahang. In other word, eco – tourism have contributed successfully into the Pahang economic and then it known at around the world. The both flora and fauna have been made more tourists attracted come to visit Malaysia as well as state of Pahang. At the same time, it has invited researchers from abroad come in our country to make research and then learn about forest ecosystem in Malaysia. Nowadays, forested area in Pahang has decreased because there is many-forested area had intruded for development. To protect this area, Forest management nowadays must be more efficient and upgraded. Its also to unsure the both flora and fauna have been protected not damage and then will be originate until future generation.
