Scientific Workshop and Bibliometric Analysis as Drivers towards Sustainable Research

17 May 2024

The organization of the workshop "Effective Data Mining: A Bibliometric" by Universiti Teknologi MARA (UiTM) under the Health and Wellness track, Research Nexus (ReNeU), UiTM, Office of the Deputy Vice Chancellor (Research and Innovation), UiTM successfully provided exposure on bibliometric analysis to educators and,

researchers, thereby enhancing research publication and advancing their respective fields of study.

Based on UiTM's motto, "Globally Renowned, Locally Rooted" and "*Usaha Takwa Mulia*," the program successfully attracted participation from 30 participants from both within and outside of UiTM.
