INDUSTRIAL ADVISORY PANEL (IAP) VISIT FOR DIPLOMA PROGRAMMES

20

by: Asmalia Zanal

The Electrical Engineering Studies (PKE), Universiti Teknologi MARA Penang Branch recently hosted a visit from the Industry Advisory Panel (IAP) to assess the two Diploma programs offered at this branch. These programs are the Diploma in Electrical Engineering (Electronics) and the Diploma in Electrical Engineering (Power). This meeting between the PKE diploma lecturers and the IAP is an annual activity that aims to fulfill the requirements set by the Engineering Technology Accreditation Council (ETAC) and the Board of Engineers Malaysia (BEM).

A total of five esteemed members from diverse industry backgrounds graced the IAP meeting with their presence. The distinguished attendees included Mr. Muhammad Fazdlie Omar, representing Continental Automotive Components Malaysia; Ts. Mohd Faizal Muhammad, from Celcom Digi; Mr. Mohd Haidar Md Hamzah, who brought his expertise from Intel Technology (M); Mr. Suhaimi Abdul Rashid, representing Supreme Didactic; and Ir. Wan Nor Rashidi Wan Tajuddin, the respected figure from W & R Consulting Engineers.

The aim of this meeting is to seek insights from the IAP regarding the curriculum structure of the PKE diploma program. Furthermore, the IAP was briefed in detail about the outcomes of the diploma program accreditation visit conducted in November 2023.

The IAP also had the opportunity to tour the PKE laboratories dedicated to teaching and learning sessions. Their insightful suggestions and contributions are anticipated to enhance the laboratory facilities to align with industry standards. Subsequently, a focused discussion in a small group, involving the lecturer and the IAP was held to deliberate upon the specific contents of the relevant course syllabus.

Special thanks and appreciation dedicated to the Event Team led by Ir. Dr. Musa for the dedication and commitment to organizing all activities pertaining to accreditation. Together we operate as a team to drive the success of PKE.
