ACKNOWLEDGEMENT

For the writing and completion of this dissertation, I want to deliver my appreciation to my supervisor lecturer, Puan Elma Dewiyana bt Ismail for all their lectures that could help me to finish this Academic Project without any problem. Besides that, not forget a very thankful to our coordinator Puan Rohimah Khoiriyah Arifin Harahap.

I also want to deliver my appreciation to my parent, who support me a lot and they was my inspiration to be a better person. They have sacrificed a lot to make sure that I get a good education.

And last but not least to my classmates and friends for all helps and support me in order to finish this report successfully. Without them, it is almost impossible for me to finish this diss

I know it is hard to pay back all their sacrifices but what I can say is thanks a lot and only God can pay it.

Thank you
