Chief Editor's Note

Suriani binti Jack

Alhamdulillah, 2023 is a very meaningful year for UiTM Sarawak in which it will celebrate its 50th anniversary. UiTM Sarawak has reached half a century old and it has been proven that the staff are committed to the development of their students. It shows that UiTM has fairly matured as an organisation. It started with just being known as a RIDA Training Center and now UiTM is one of the public higher institutions that has produced many graduates as well as in UiTM Sarawak, especially Bumiputeras from Sarawak and Sabah.

I myself seem to have been lulled into a dream because I was given the opportunity to serve the role as Coordinator of Jaringan Alumni under ICAN UiTM Sarawak to drive UiTMCS members, especially its alumni, towards Globally Renowned recognition all over the world. In Syaa Allah, may Allah ease our journey. Aamiin.

Chief Editor's Note

This e-magazine is mainly focusing on Management of Business Records and how it is related to the management of alumni records as its core business. The Alumni can help with global admissions and recruitment efforts, career and professional development, local and state advocacy or lobbying and through their generous philanthropic support.

All articles and write-ups included in this e-publication are based on research or non-academic research of the university. The purpose of publishing this e-magazine is to record and bring us together through strengthening the engagement of the alumni in university and how to strengthen this relationship so that we can create meaningful values in return to our graduates through projects and programmes of the university to reach its achievements which is related to the development of UiTM Sarawak alumni starting from the year 1973 until now. They are part of the history.

One of the best parts is the network that comes with it. An alumni network connects you, as a graduate, with a number of professional contacts and other graduates from the university.

"Being willing to share the lessons learned on your journey, strategies for meeting challenges, and find opportunities for growth and connection are a few good moves. It all starts with a question, 'Hello, how can I help you?'"

Last but not the least, strike for the best and strive for excellence throughout our most productive year at UiTM Sarawak.

Happy 50th Anniversary, UiTM Sarawak!
May God Bless Us All.

Lots of Love,

SURIANI BINTI JACK

ACKNOWLEDGEMENT

We have completed our E-Magazine assignment on time you read this magazine. It is impossible for us to complete it without full support and guidance from Ms. Suriani Jack. We truly appreciate all the non-stop guidance given in order for us to complete this E-Magazine report.

Other than that, we would like to thanks each other for the support time and also the ideas on how to work on the E-Magazine report progress. We also always make sure that we make time for each other to discuss this report. Work together is better than working alone.

Thank you.

Alumni Engagement: A Key to Enhance Quality Education

Former students or graduates of an institution can play a hugely productive role in the reform of higher education. Alumni have a significant great deal of fundraising potential. It is equally capable of establishing a network for skill and information sharing. It is thus strategic for institutions of higher learning to establish and maintain excellent relations with their alumni by inviting them to participate in decision making, network building, and development processes that contribute to the overall advancement of any educational institution. A strong alumni network that includes external stakeholders helps the university build its reputation. The Alumni are a true source of strength for the educational institution. An engaged Alumni Association can help with academics, student support, and resource mobilization.

Excellent alumni can be a role model for fresh graduates. Lots of universities honour their alumni who have become entrepreneurs and have contributed to national development. Alumni has a role in university development, curriculum development, employability, higher education transformation, and continual quality improvement for education. Alumni also can provide resource persons for seminars and talks.

By: Ajarah bt Hailah

Alumni Engagement: A Key to Enhance Quality Education

There are many alumni contributions in improving the quality of education. The UITM Alumni Association established the UiTM Endowment Fund in 1998. The foundation provides scholarships to students who qualify and funds research and development projects. The fund has awarded out approximately RM100 million in scholarships and grants since it was established. Next, UITM alumni have contributed to university projects such as new building construction, equipment purchases, and scholarship funding. They have contributed to enhancing the educational quality of UITM.

Although fund raising appears to be a regular practice among alumni. They must be involved in a variety of ways, including mentoring students, assisting students, recruiting potential students, providing valuable input to the institution, and so on. To achieve alumni engagement, institutions can create an alumni centre or an alumni relationship group, and the research of alumni impact on institutions should be conducted, and alumni might be connected to a certification and training programme. Besides, to channel fundraising, assess alumni motivation to donate contributions for university activity.

CINCIN *Graduasi* UiTM

PENGENALAN GRADUASI

Istiadat Konvokesyen UiTM adalah suatu detik indah yang dinanti-nantikan oleh setiap graduan dan alumni khususnya.

Kecemerlangan ilmu dan prestasi akademik serta kekuatan nilai kemahiran diri adalah aspek penting yang perlu dimiliki sebelum bergelar seorang graduan yang memiliki keserjanaan ilmu.

Bagi meraikan keserjanaan ini, Program Akademik Seni Reka Logam Kontemporari, Kolej Pengajian Seni Kreatif di bawah Pengajian Seni Reka, akan menghasilkan Cincin Graduasi UiTM (CGU) sebagai simbolik bagi meraikan kejayaan setiap graduan di Universiti Teknologi MARA.

Sebarang pertanyaan sila hubungi:

Kolej Pengajian Seni Kreatif
UiTM Shah Alam.

Phone :

013 3996440 (Pn. Noorhaslinda Mohamad Ali)
019 3940654 (Pn. Hj. Saadiah Kaspin)

OBJEKTIF CGU

- ◆ Menjana satu produk industri keluaran UiTM yang mempunyai nilai sentimental - UiTM di Hatiku.
- ◆ Sebagai simbolik kejayaan dan memori kepada graduan dan alumni.
- ◆ Mempromosikan graduan dan alumni UiTM kepada pihak luar.

**Tempahan akan mula
dibuka pada Istiadat
Konvokesyen ke-97.**

Alumni Stay Connected to Their Alma Mater

Introduction

The bond between alumni and their alma mater is strong and enduring. Graduates maintain a special connection to their educational institutions long after graduation. Let's explore why graduates stay connected and engage with their old schools.

Nostalgia and Fond Memories

Former students cherish their memories and emotional attachment to their alma mater. The familiar hallways, extracurricular activities, and academic journey hold a special place in their hearts. Nostalgia fosters a sense of belonging and attachment to their alma mater.

Networking and Career Opportunities

Staying connected to their alma mater provides valuable networking opportunities for alumni. They recognize the benefits of maintaining relationships with fellow alumni, teachers, and industry professionals. Alumni events, networking platforms, and associations offer chances to expand professional networks, seek mentorship, and explore career paths.

Giving Back and Philanthropy

Gratitude for the education and experiences received motivates graduates to give back to their alma mater. Alumni support their educational institution through financial donations, volunteer work, and fundraising initiatives. Their contributions fund scholarships, research, and campus improvements.

Conclusion

The alumni-alma mater bond extends beyond graduation, driven by shared memories, nostalgia, and a desire to make a difference. Alumni stay connected through nostalgia, networking for career growth, and philanthropy. This connection highlights education's transformative power and the educational experience's lasting impact.

ALUMNI CELEBRATES SUCCESS

Alumni is a group of people who have all attended the same school or university. They may have graduated years ago, but they still feel a strong connection to their alma mater. They may stay in touch with each other through social media, alumni newsletters, or even regular reunions.

These groups can be a great source of support and encouragement for former students. They can offer advice on career choices, help with job hunting, or simply provide a shoulder to cry on when times are tough. They can also be a great way to stay connected to the school and to continue to learn and grow.

When an alumni celebrates success, they are not just celebrating the individual accomplishments of their members. They are also celebrating the strength of their community and the power of education. They are showing the world that anything is possible if you have the right support system and the drive to succeed.

Alumni Rise and Evolved

A dedicated group of University Teknologi Mara (UiTM) Sarawak alumni established the non-profit Persatuan Alumni UiTM Sarawak (MITSA) in 1984. The primary objective of MITSA is to represent UiTM Sarawak alumni's interests and offer them helpful support and networking opportunities.

The largest alumni association in Sarawak, MITSA proudly boasts a membership base of over 5,000 individuals. It operates through a number of active chapters spread out around the area, organizing an array of engaging events and activities just for its members.

The initiatives of MITSA make extensive use of networking events. The association regularly organizes career fairs, alumni forums, and social gatherings to provide alumni with a forum for networking, exploring new opportunities, and developing meaningful relationships. These events help participants broaden their perspectives and build relationships with potential employers.

MITSA also emphasizes the value of professional development. It offers different themes for workshops, seminars, and training courses, enabling alumni to keep current with market trends and advance their abilities. By providing these chances for growth, MITSA offers its members the resources they need to be successful in their specialized fields.

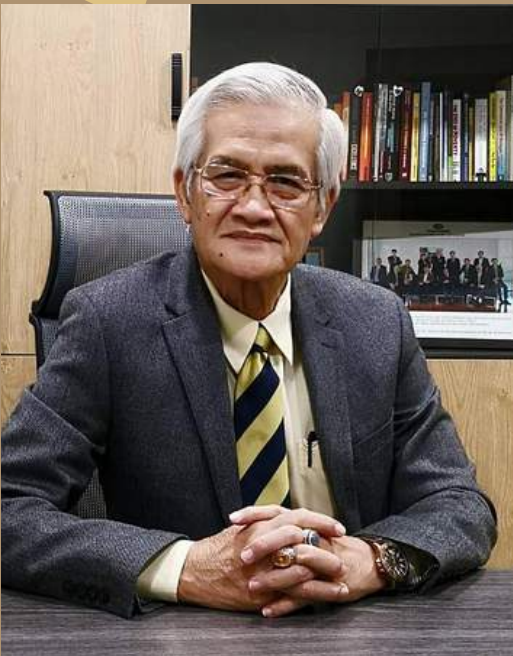

Furthermore, MITSA actively participates in charitable activities. The organization organizes fundraising events, awards scholarships to eligible students, and actively engages in community service. Through these initiatives, MITSA is able to make a significant improvement to Sarawak and foster the giving spirit.

By: Nurul Ain binti Wasilie

Alumni Rise and Evolved (Prominent Alumni)

Concerned alumni who recognized the need for increased support for UiTM Sarawak graduates were the driving force behind the creation of MITSA in 1984. Tan Sri Abdul Wahab Aziz, who had the distinction of becoming the first chancellor of UiTM Sarawak, served as its inaugural president, which is noteworthy. MITSA has grown significantly over time, cementing its status as a significant alumni group with a sizable membership base.

**Tan Sri Abdul Wahab Aziz
(PROMINENT ALUMNI OF UiTM)**

The commitment of MITSA to the development of UiTM Sarawak is unshakable. In addition, its commitment to charitable work shows that the business genuinely wants to contribute to Sarawak's development and growth.

Alumni of UiTM Sarawak benefit significantly from MITSA's extensive perks and possibilities. The association works hard to serve its members and advance Sarawak by encouraging relationships, promoting professional development, and participating in volunteer work.

Business Record Management as a key of compliance and efficiency

Business Record Management can be defined as a field of management responsibility for the efficient and systematic control of the creation, distribution, use, maintenance, and disposition of business records. It is a vital process to achieve the efficiency and economy as well as to preserve the business records. Compliance and efficiency both also play a crucial role within organization in order to make sure the organization run smoothly.

Adherence to applicable laws, rules, and industry standards that control how organization handle and manage their records is referred to as compliance.

While efficiency which refers to an organization's capacity to complete activities and operations in a streamlined and productive manner. In numerous ways, effective record management contributes to operational efficiency.

Business records are required for regulatory compliance as well as efficient business operations. A well-managed records management system can assist businesses in meeting regulatory obligations. Many sectors are governed by regulations that require organisations to preserve specific records for a set length of time. A well-managed records management system can assist firms in ensuring compliance with these standards. In addition, demonstrate diligence as organization may be required to demonstrate that they took reasonable steps to comply with regulations in the case of a lawsuit or other legal procedure.

A well-managed records management system can assist firms achieve this by making essential records easily accessible. Moreover, it can also Increase efficiency. A well-managed records management system can assist firms in increasing efficiency by making records easier to identify and access. Not only that the organization can save time and money by doing so, it is much easier to find the information we need when records are properly organized and indexed as well high chance to avoid the risk of error.

By: Rostella Sid

A well-managed records management system can assist firms achieve this by making essential records easily accessible. Moreover, it can also increase efficiency. A well-managed records management system can assist firms in increasing efficiency by making records easier to identify and access. Not only that the organization can save time and money by doing so, it is much easier to find the information we need when records are properly organized and indexed as well high chance to avoid the risk of error.

In conclusion, business record management is critical to ensure both compliance and efficiency inside an organisation. Businesses can meet legal and regulatory requirements, manage risks, and improve operational effectiveness by keeping accurate and organised records.

UiTM Sarawak 50th Anniversary Book Review and Writing Refinement Workshop

On 7th July 2023, another workshop organized by Pejabat Jaringan Industri (PJI) of UiTM Sarawak was held in Bilik Mesyuarat Utama, UiTM Samarahan, which was the Writing Refinement Workshop and Review of the 50th Anniversary Book of UiTM Sarawak, where this workshop was attended by 14 participants consisting of the head of the project, that was myself, writers and editors.

The main purpose of this workshop is to ensure that the draft of this book is fully ready to be reviewed and commented by Ybhg Dato Rector of UiTM Sarawak, Prof Dato Dr Jamil Hamali upon his return from performing Hajj in July 2023 before it is updated again for the next process.

This book is detailed in more depth in terms of narration about the history of the development of UiTM Sarawak such as strategic cooperation from both inside and outside of the country, research grants, commercialization of products, achievements, development of UiTM Sarawak alumni starting from the year 1973 until now.

In order to realize the dream of publishing from the draft to the published book, a Homecoming Dinner will be held in conjunction with the 50th Anniversary of UiTM Sarawak where the official launch and sale of this book will be made that night.

The financial collections from the sale of this book will be channelled to Tabung Seri Kenyalang (fund) to help UiTM Sarawak Bumiputera students who are in need from the B40 group.

THE HISTORY OF UiTM SARAWAK

In 1956, UiTM was established as Dewan Latehan RIDA (also known as Pusat Latihan RIDA), or the Rural and Industrial Development Authority (RIDA) Training Centre. Pusat Latihan RIDA first began operations in November 1956. Following that, in 1965, the role of Pusat Latihan RIDA was expanded, and the training centre became known as Maktab MARA or MARA College, and it was included into the Majlis Amanah Rakyat (MARA) Training Department. Later in 1967, in response to the need for more trained Bumiputera professionals, Maktab MARA has been upgraded to a tertiary institution and renamed Institut Teknologi MARA (ITM).

at 1973, ITM Sarawak was established at Batu Lintang, Kuching, Sarawak. On August 26, 1999, the institute became upgraded to the level of university and known as Universiti Teknologi MARA (UiTM). This enabled the university to provide courses of study and degree conferral at all levels.

The UiTM Sarawak campus has moved multiple times, first to Semenggok in 1987, then to Samariang in 1989, and finally to Kota Samarahan in 1997. In 2002, a second campus, UiTM Mukah Campus, was established in response to the Sarawak state government's desire to develop Mukah as an education centre in Sarawak. In 2015, the current Mukah campus went totally operational. In order to handle the increasing amount of students and academic programmes, a third campus, UiTM Samarahan 2, was established in 2013.

**"PHUKET GOLD A DREAM
COME TRUE FOR MALVERN"**

A photograph of Dr Malvern Abdullah celebrating his victory at the Phuket Gold competition. He is holding a large Malaysian flag and a trophy featuring a cartoon animal. The background shows a banner with the word 'JOBARBOLA'.

That dream came true late Saturday for the 'so happy and emotional' senior lecturer of Universiti Teknologi Mara (Mara) Sarawak's Faculty of Business Administration when he outperformed Chaipipat Liwtrakul of Thailand and Fathuhulla Mohamed of Maldives in the Men's Athletic Physique 160cm category.

After 11 years, finally my first WBPF (World Bodybuilding and Physique Sports Federation) gold medal!

“Sebelum tok sikda; kinek tok dah ada (previously, didn't have it; now, I have it!)” he told The Borneo Post in a WhatsApp text message.

Malvern, 48, made his world championship debut in 2014 in the Mumbai edition where he placed eighth in the Bantamweight (65kg) category. His highest achievement previously was the silver medal which he obtained in 2015, 2017 and 2021. He also picked up a bronze in 2016.
