ACKNOWLEDGEMENTS

In the name of "Allah", the most beneficent and merciful who gave us strength and knowledge to complete this report.

This report is a part of our course "INTRODUCTION TO STATISTICS (STA104)". This has proved to be a great experience for us.

We would like to express our gratitude to our subject lecturer, MADAM IDARI ISMAIL; who gave us this opportunity to fulfil this report. She gave us moral support and guided in different matters regarding our research, KNOWLEDGE ON ISLAMOPHOBIA. She had been very kind and patient while suggesting us the outlines of this report. We thank her for her overall support to us during the period in completing this report.

We are also thankful to everyone who supported us, who had participated in answering our questionnaire regarding our study, our beloved families and friends. For that we have completed our report effectively and moreover on time. They gave us many helpful comments which helped us a lot in preparing this report.

CHAPTER ONE

INTRODUCTION

1.1 BACKGROUND OF STUDY

Islamophobia is the fear, hatred of or prejudice against the Islamic religion or Muslims generally especially when seen as the source of terrorism. Islamophobia phenomenon is basically a religious-based hatred.

This term was first used in early 20th century and comes to light again when an attack happened at World Trade Centre in New York on 11 September 2001. Since then, hatred towards Islam among Western countries been increasing. This resentment towards Islam also increased because of the developments in Middle East.

A radical group who named themselves as Islamic State of Iraq and Syria (ISIS) had came to surface declaring themselves as the true Muslims. This group has been exposed to worldwide about their wrongdoing in launching an attack years ago in London. Because of this attack, the fear and hatred towards Islam was drastically increased.

Since this phenomenon happened, the Muslims woman are prohibited to wear Burqa in France, the discrimination against the act of Muslims and a strict security check up at every immigration towards the Muslims and people who came from a country where majority of its residents are Muslims.

1.2 OBJECTIVES OF STUDY

This study seeks to answer the objectives as shown below:

- i) To investigate the awareness about the tragedy that cause Islamophobia to be spread in the Western countries among students in UiTM Cawangan Kelantan.
- ii) To study the awareness regarding Islamophobia phenomenon that has been happening in our world among students in UiTM Cawangan Kelantan.

CHAPTER TWO

METHODOLOGY

2.1 DESCRIPTION OF DATA

2.1.1 TARGET POPULATION

Population of the study can be defined as all subjects that are consisted which is human or otherwise that are being studied. Population also is a collection of elements of interest or the measurements obtained from all individuals or objects of interest. As an example, people, animal, plants or thing we may collect data. In this study, the target population is all 5630 students in UITM Cawangan Kelantan.

2.1.2 SAMPLE

The definition of sample is a group of subjects that are selected from population. Figure below shows the sample that is selected from the population.

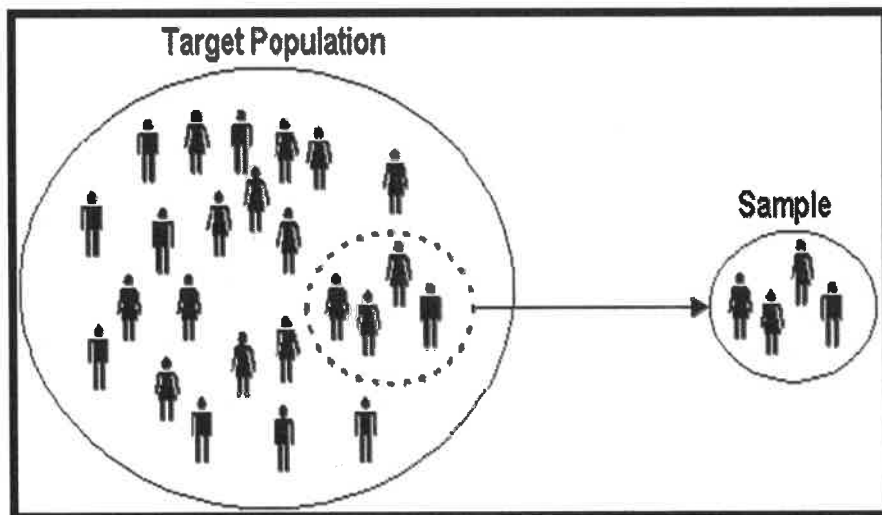

Figure 2.1 Sample
