**A STUDY OF ISSUES IN THE IMPLEMENTATION OF
RAINWATER HARVESTING SYSTEM ONTO EXISTING
BUILDING**

**NIRDAYANTI BINTI MOHD LANI
(2009432504)**

**Academic Project submitted in partial fulfilment of the requirements
for the degree of
Bachelor of Building Surveying (Hons)
Centre of Studies Building Surveying
Faculty of Architecture, Planning & Surveying**

July 2012

**CENTRE OF STUDIES BUILDING SURVEYING
FACULTY OF ARCHITECTURE, PLANNING AND SURVEYING
UNIVERSITI TEKNOLOGI MARA**

ACADEMIC PROJECT

BSB 608 & BSB 658

CONFIRMATION OF ACADEMIC PROJECT AMENDMENTS

**This is to confirm that the student has amended his/her
academic project as directed and therefore allowed to compile**

Marks	Grade

Student's Name : **Nirdayanti Binti Mohd Lani**

UITM No. : **2009432504**

Title : **A Study of Issues in the Implementation of
Rainwater Harvesting System onto Existing
Building**

Supervisor's Name : **Sr Rohimah Khoiryah Bt. Mohd Arifin
Harahap**

Signature :

Date : **July 25th 2012**

CHAPTER 1

INTRODUCTION

1.1 Preface

The most important element in our world especially for human beings is water. Moreover our body also contain mostly from water. Our daily routine such as drinking, cooking, washing, agriculture activities and also industrial activities need highly demand resource from water. The hydrological cycle is the important element which is part of the process brings rainwater from the precipitation process, other than hail, sleet, snow, and others.
