CHAPTER ONE

INTRODUCTION

1.1 Background of study

Politics is a set of activities associated with the government of a country. Politics is important to each country especially the party because they will gain influence to have power in making law in the country. Every adult person should vote because our politics is our beliefs about how country have to be governed. Also, politics is important because it will affect by personal relationship between people who works together or separated. People should know about politics because we should make sure to all citizens to know there are rules and regulations to be follow. If citizen do not know about the law, then there will be punishment. In democracy, the citizens have the right to choose who to represent the government in the future by having elections that called Suruhanjaya Pllihan Raya (SPR) Malaysia.

1.2 Problem Statement

Student nowadays does not taking politics issue heavily due to their busy schedule and a lot of things to do. Most of them not seeing this thing as a serious issue even though the politics now have a lot of problem or not but they as a new generation that may conduct the government must know the issue that had occur in our country.

Some of student think that politics is only government job to protect it. So, they will just put it aside as they not worry about it. There are a lot of things already happen in our country that must them know, also there are advantages of knowing the politics now. As we know that the age of voter already been revealed to 18 years old now. Majority of them are among teenagers who are still study now.

1.3 Objectives

The objectives in this study are written as below:

- To identify opinion of student about politics
- To investigate why the student in technology generation right now don't really care about politics
- To investigate what kind of solution this problem to solving quickly
- To identify how the student follow up about politics issue
- To identify student who interested in becoming a minister or politician

1.4 Significance of study

The findings of this study will be useful to:

STUDENT

Politics is important for everyone to know because the students should know what is going on around them. For example, if new law is made in student's area, some students who interest in politics might want to make sure for every students to know the law that had been made so that no student would breaks the law without even knowing it.

COMMON PEOPLE

People should be aware about politics because every person should have a word in what will happen later. Every vote that people make sense either break people or make better people. The way everyone voting will affect many people and daily life either now or later on.

CHAPTER TWO

METHODOLOGY

2.1.1 TARGET POPULATION

Population of the study can be defined as all Faculty of computer and mathematical sciences students in UiTM Cawangan Kelantan Campus Machang. In this study, the target population is 1600 Faculty of computer and mathematical sciences diploma students that consists of male and female students.

2.1.2 SAMPLE

Based on the Raosoft, the sample size is 310

Figure 2.1 Raosoft

Based on Raosoft, population of the study are 1600 student of Faculty of computer and mathematical sciences in UiTM Machang. However, to facilitate the study, the sample size for this study is only 310 since this study is a small scale study.
