ACKNOWLEDGEMENT

ASSALAMUALAIKUM.....

First and foremost, I would to convey a very grateful appreciation to Allah SWT for his blessings all the time.

Alhamdulillah, my final project has been completed and I'm really happy about it! It is not easy to do a thesis especially when we need to do a library search, still find out whether our chapter two is enough or not!. I'm glad that I still have some of 'beautiful' people out there who is willing to help me and I really appreciate it.

Million thanks to my lecturer of WTE 375, En. Wan Mohd Nazri for his encouragement and caring thoughtfulness towards his students. Its nice to have a dedicate lecturer like you.

My deepest appreciation goes to my lovely advisor, Cik Norhafizah Rosman for her invaluable assistance, courage and co-operation throughout my final project. Thanks for everything!

Not forgotten to DIP' s Head of Programme, Associate Professor Dr. Jamaludin Kasim for being a great 'AYAHANDA'.

Special thanks to my loving parents and family for their love and support. You are the most important people in my life!. I don't know what I would do without you.

AUGUST 2002

Furniture industries is one of the industry that has been developed in Malaysia. Most of the employees from this sector contribute profits to our country. But still, accident that occurred in our furniture industries are increasing and affect the whole community, as well to the both employers and employees. What will prevent accidents is it implementation through an achievable and flexible specific plan supported by regularly up dated procedures towards any changes in the organisation. Alternatives or steps must be taken before these problems are continue arising or we're going to loose these precious assets in the Malaysian Furniture Industries.
