

MOTOR VEHICLES POLLUTIONS

By

Maizatul Akma @ Maimun binti Mohamad

Final Project Submitted in Fulfillment of the requirement for the Diploma in Wood
Industry in the Faculty of Applied Sciences
Universiti Teknologi MARA

October 2004

ACKNOWLEDGEMENTS

First of all, I would like to thank to the Almighty Allah for His blessing and rendered in guiding me towards the completion of this final project.

I also would like to wish my gratitude to my advisor, En. Megat Ahmad Kamal Megat Hanafiah because of the willingness to contribute his knowledge, time and effort till I completed my final project for guiding, reading, give an advice and comment as the project evolved.

Also special thanks to lecturer of this subject, Prof. Madya Abdul Jalil because of the help and supported.

Similar thanks are dedicated to my loyal friends, Nafizah, Zurita and my entire classmate who help me to complete this project perfectly.

Lastly, I want to give my sincere gratitude to my beloved family who gave me the strength to keep up with the study and encourage me leading towards the success of this final project.

Also my appreciation goes to all individuals who has involved directly or indirectly with this project. May Allah bless us.

MOTOR VEHICLES POLLUTIONS

By

MAIZATUL AKMA @ MAIMUN BT MOHAMAD

October 2004

This project carried out with the objective to give a sense of responsibility to the environment. Then we will study about motor vehicles pollutions, the pollutants and overcoming for that. The total of vehicles in Malaysia was 10.6 million and the total of vehicles Kuala Lumpur was 2.2 million. The causes which come from motor vehicles are noise pollutions and photochemical smog. The type of air pollutants are carbon monoxide, sulfur dioxide, nitrogen oxides, hydrocarbon and others. Government had always checked the mechanical mandatory for motor vehicles and make sure the vehicles follow the rules. Government also can make a sport check randomly for all of motor vehicles and make sure the vehicles follow up the rules of smog released. The public has become too aware about these problems. So that, the problem can be solve perfectly.
