SEPTEMBER 2014 – JANUARY 2015

ABSTRACT

To complete the degree study, there have one subject about industrial training. So, the author have choose National Archive of Malaysia Melaka Branch in order to do an industrial training for five month. In this report it has describe about the introduction of an organization, organizational information, training activities and special project, and conclusion. Furthermore, for the conclusion it will more explain about knowledge that has been gained, lesson learn from industrial training, content of training activities, and limitations and recommendations. Furthermore, in this report also will be discus about training activities that has been done during industrial training for five month which are in administrative activities and record management activities. For the training activities the author have included with workflow of process and steps this is to ensure easy to understand that activities. Besides, for the special project the author have choose classification of coding system in federal and state department in Melaka. As well known, classification of coding system is an important element in record management and filling in order to have a correct standard classification and for a fast and accurate retrieval of file. So, from the observation the author have proposed some of simple system in order to store and review the information about federal and state department in Melaka and their coding that has been used. So, this proposed system will give many benefits for the organizations and their staff.

Keyword: industrial training, classification of coding, federal and state department in Melaka, National Archive of Malaysia Melaka Branch

ACKNOWLEDGEMENT

First of all, Alhamdulillah, thanks to God because finally I have done my assignment for the subject Industrial Training (IMC 690) with successfully and in their dateline.

Almost three month try harder to complete the whole chapter in this assignment. When making this assignment, there are a lot of problems that faced it especially in searching the information because there are the limited sources. There is a lot of time to spend in making the best and complete report. But, at the end after accomplished this assignment, I realized that, have got a lot of new information that never know about the organization and work processes in an organization.

A thousand thanks to lecturer as an advisor for this subject, Sir Isma Bin Ishak because has taught patiently and guided about the subject assignment in order to finish task completely.

Not forgotten yet, thanked to all National Archive of Malaysia Melaka Branch staff and especially to Tuan Haji Norasid Bin Mohamed Yasin as my supervisor that have gave guidance, assist, and give the knowledge has been in ANMCM for industrial training in five month.

Last but not least, a lot of thanks give to all members because share an information and give an opinion during accomplish this task. Also, thanks for the classmates because gave many support and share the knowledge about this subject.
