

## **ACKNOWLEDGEMENTS**

Alhamdulillah, thank God the Almighty ALLAH S.W.T as the permission given to complete my thesis successfully.

Also I would like to extend my sincerest gratitude to my advisor PM Dr. Jamaludin bin Kasim that also as the lecture this subject for all his support and guide in complete my thesis. Besides, thank to all my friends, lectures and staffs DIP for cooperation given during the course of study.

Last but not least, to someone that special in my life. Thank for your support, your care and for being such a wonderful part of my life. I'm really appreciating it. And also to those who are involve direct or indirectly in making my thesis. Thank for all. Only ALLAH S.W.T can repay their kindness.

# **WOOD ADHESIVES IN MALAYSIA**

By  
**ZURAINI BINTI OTHMAN**

**APRIL 2007**

## **ABSTRACT**

Wood adhesives are an important element in wood based processing industries in Malaysia. There are many types of adhesives that use follow the types of products to produce in wood based industries. The properties of adhesives are different and it is using for suitable application follow the properties. Quality and bonding strength for each adhesive also different and it determine by specific tests.
