

COMMON WOOD DEFECTS

NIK KHADIJAH BT NIK HASSAN

**Final Project Paper Submitted In Partial Fulfillment For The
Diploma in Wood Industry, Faculty of Applied Sciences,
Universiti Teknologi Mara**

October 2008

ACKNOWLEDGEMENT

Alhamdulillah, I'm highly grateful to Allah S.W.T, for the blessing given to me so my final projects paper under the title Common Wood Defects had been successfully submitted as planned. Added to my gratitude and thanks is my advisor, Prof. Madya Abdul Jalil bin Ahmad for becoming my advisor in this project paper and giving the support and advices from the beginning until the end of my research. Along the way without his instruction or order, I couldn't complete my project paper. The lesson that had been learned is that, this final project paper can be done. Within this paper, some lessons are learned through theory and practical mainly to the subject of Wood Composite 1 and Wood processing 2.

Then to all staff at Al-Bukhari Library, UiTM Jengka Pahang, for loan of books and giving help for information searching. Also not forgetting to my family for their support and my entire friends, and lecturers because for help and support. May Allah bless you all.

COMMON WOOD DEFECTS

By

NIK KHADIJAH BINTI NIK HASSAN

OCTOBER 2008

ABSTRACT

Wood is nowadays are importance source of the basic raw material used to produce many products in generated an economic growth. Basicly, the good wood can give a high quality of finish product. Sometimes, the wood defect can give a big problem to the all wood product producer because this wood defects that we face normally is starting from natural defect, while seasoning and machining would occur on wood. So, the best way to get the good quality of wood is control dry it using special drying schedule and the person who handle the machine should be more careful. It is very importance to get the high value of wood in the market, it is because, not to easy to get the good log in the short time.
