## **Acknowledgement**

We would like to take this chance to express our sincere thank and gratitude to all of those people who have contributed in valuable comments in completing of this research paper. This project would not have been produced and completed in time without the blessing from Allah Almighty.

The person most instrumental in completing this project paper is Mr. Kuldip Singh as ADS554 lecturer who despite his busy daily schedule as dedicated lectures giving us the necessary guide. An appreciation also goes to our project supervisor, Miss Noni Harianti bt Junaidi for her assistance and supports.

We also like to thank the Ministry of Health for their cooperation and commitment in completing this study. For Madam Pises Busu and Mr. Ricky Bayoh, thank you very much. Last but not least, our sincere recognition goes to friends, classmates and individual who involve directly or indirectly in the process of accomplishing the report. Thank you.

## **ABSTRACT**

This study was done to observe the awareness of PROSTAR members towards the impact of the programme and the level of awareness. The approach of the PROSTAR take to implement the programme is different from time to time and according to the current issue. Even though the approaches is different, it still based on the guidelines which was given by the Ministry of Health, this is to make sure the approaches is align with the objective of PROSTAR. The objectives of this study include identifying the member's level of awareness toward PROSTAR programme, the impact of the programme, observe the level of exposure of members to the information on HIV/AIDS and to determine the influence of gender on the level of awareness on PROSTAR programme. This study also recommends some alternatives on how to increase the level of awareness of members towards PROSTAR programme of HIV/AIDS.
