Industry, Faculty of Applied Science,

Universiti Teknologi MARA,

April 2009

ACKNOWLEDGEMENT

Assalamualaikum

Alhamdulillah....Praise and thanks only to Allah SWT, the Most Gracious and the Most Merciful and for all creation of the entire creatures of everything. Without the opportunity from Allah SWT, we would not make this task. All the mistakes written in this project come from the weakness of our as human being and all the beautifulness of knowledge is come from Allah SWT.

We would like to express our deepest appreciation and sincere gratitude to our project advisor, Miss Siti Zalifah Binti Mahmud and our project lecturer, Prof. Madya Hj. Abdul Jalil Bin Hj. Ahmad for their help, support and guidance throughout the study. Sincere thanks are also to our Head Program of Wood Industry, Mr. Ahmad Fauzi Bin Othman@ Awang for the cooperation.

ABSTRACT

This project was conducted by final semester students of Diploma in Wood Industry. The objective of this study is to solve the problem usually faced by the apartment residents based on their limited space and environment of the kitchen. Inspired by that, this new and compact kitchen cabinet designed which come with five attractive criteria such as modern, simple, adjustable, saving space and shown urban life.
