## **ABSTRACT**

*The practical experience gained during my eight-week industrial training at Majlis Agama Islam Wilayah Persekutuan (MAIWP). The internship aimed to bridge academic knowledge and real-world application, offering hands-on involvement in tasks related to web development, IT asset management, and vendor documentation. My primary responsibilities included developing an educational website using WordPress, inspecting and managing IT assets, and organizing documents with vendors. Through these tasks, I enhanced my skills in HTML, CSS, JavaScript, content management systems, and learned best practices in IT asset tracking and secure disposal.*

*The report also reflects on the development of key soft skills such as teamwork, communication, and time management, which were integral to successfully completing assignments and collaborating with colleagues. These experiences have provided a comprehensive understanding of information technology operations within an organization, preparing me for future roles in the field and helping me to grow both professionally and personally.*

Keywords:

Industrial Training, Web Development, IT Asset Management, WordPress, Professional Growth

<b>1.0 INTRODUCTION</b>	1
Background of the industrial training program	2
Purpose and objectives of the report	3
Significance of industrial training for students of Diploma in Information Management	4
<b>2.0 ORGANIZATIONAL INFORMATION</b>	5
Overview of the organization where the industrial training took place	6
Organizational structure	10
Departmental structure and function related to information management	12
Explanation of the student's assigned department or unit within the organization	16
<b>3.0 INDUSTRIAL TRAINING ACTIVITIES</b>	21
Detailed description of the tasks, projects, and activities undertaken during the industrial training	22
Explanation of the skills, knowledge, and competencies applied or developed during the training period	38
<b>4.0 LEARNING OUTCOMES AND ACHIEVEMENTS</b>	40
Reflection on the learning outcomes achieved during the industrial training	41
Discussion of personal growth, skills enhancement, and professional development	42
Examples of successful projects, accomplishments, or challenges overcome	43
<b>5.0 RECOMMENDATIONS AND CONCLUSIONS</b>	46
Suggestions for improvements in the industrial training	47
Recommendations for the organization to enhance the information management practices based on the student's observations and experiences	47
Summary of the key findings and insights from the industrial training experience	48
<b>6.0 Reference</b>	49
