

TETAL. TRIBE POD

This tribe pod is inspired from the Tetal or fire place in Kelabit longhouse. The reason is that the Tetal function as beacon for the families to be together. The same goes to my tribal pod concept which is to expose visual interaction and the idea is to replicate social interaction of Kelabit tribe.

SEBUKUH. TRIBAL HUT

The inspiration of this tribal hut is Sebuku or knots of Kelabit's name changing ceremony. The reason is that the Sebuku act as tracking device that will transform into different forms based on the surroundings same goes to the concept that is conversion and the idea to convert of existing usage to a new use.
