**BOOKING SYSTEM FOR LAWA
STUDIO APPLY USERCENTERED
DESIGN (UCD)**

NURUL HAZIRAH BINTI IDRIS

**BACHELOR OF INFORMATION SYSTEM
(HONS.) BUSINESS COMPUTING**

JANUARY 2025

ACKNOWLEDGEMENT

Alhamdulillah, praises and thanks to Allah because of His Almighty and his utmost for blessing, I was able to complete this final year project 'Booking system for Lawa Studio apply user-centered Design (UCD)' within the time frame given. Even though I have faced many difficulties and challenges in completing this report I was able to figure out the problem. I would to express my gratitude to all those who contributed to the completion of this study. First of all, I would like to express my gratitude to my supervisor Mr. Muhammad Atif bin Ramlan, for his valuable knowledge, guidance, time, fruitful ideas, generous assistance and patience. His willingness to assist me to solve the issues arise during my project and ensuring the completion of the project on time. I also would like to thanks my CSP650 lecturer, Madam Siti Nurul Hayatie Binti Ishak, for constant support and ensuring I manage my project until completion. Without both of them, my supervisor and my lecturer I may not be able to complete the project on time.

Special appreciation also goes to my beloved mother Puan Faedzah Mustapa, prayer to my late father Idris bin Alin who always be my motivation, my elder sisters Nur Hafizah and my younger sister Khairul Farhana for their prayer, motivation and moral support to ensure I be able to complete this project successfully.

Finally, my thanks to all my friends and all those who have supported me to complete this project either directly or indirectly. I am grateful for all the help and guidance. May Allah (S.W.T) reward them for their kindness.

ABSTRACT

This project aims to address operational inefficiencies at Lawa Studio caused by its manual booking system. The implementation of a Management Information System (MIS) will allow customers to book services online, improving decision-making and streamlining operations. The studio's reliance on WhatsApp for communication has led to delays in responding to client inquiries, motivating the development of this MIS booking system to enhance communication efficiency. The system, based on the Custom Waterfall Model, consists of six stages: planning, analysis, design, implementation, testing, and documentation. Key features include real-time booking, secured payment options, and management tools for tracking business performance. The MIS reduces scheduling conflicts, automates bookings, and provides instant notifications for customers. Staff also benefit from reduced manual work and improved workflow. Future enhancements include mobile compatibility, AI-powered chat support, advanced analytics, multi-location support, and a customer loyalty program. This system aims to improve customer satisfaction, optimize business operations, and support Lawa Studio's growth and competitiveness in the market.

TABLE OF CONTENTS

ACKNOWLEDGEMENT	5
ABSTRACT	6
CHAPTER 1: INTRODUCTION	15
1.1 Background of Study	15
1.2 Current Business Process	16
1.3 Problem Statement	18
1.4 Objective	19
1.5 Scope	19
2) Technology Scope	21
1.7 Project Framework	22
1.8 Gantt Chart	27
1.9 Conclusion	27
CHAPTER 2: LITERATURE REVIEW	29
2.1 Management Information System (MIS)	29
2.2 Booking System	30
2.3 Photography Industry	32
2.4 Application Programming Interface (API)	33
2.5.1 User-Centered Design	35
2.6 The Adapted Waterfall Model	37
2.6 Similar Existing System	39
CHAPTER 3: METHODOLOGY	52
3.1 Project Development Methodology	52
3.1.1 Adapted Waterfall	53

3.2 Planning	57
3.2.1 Feedback from Lawa Studio for the Proposed System	58
3.3 Analysis	59
3.3.1 System Architecture	59
3.3.1 User Requirement	62
3.3.3 Non-Functional Requirement	64
3.3 Design	66
3.3.1 Context Diagram (CD)	66
3.3.2 Data Flow Diagram (DFD)	67
3.3.3 Entity Relationship Diagram (ERD)	69
3.3.4 Site Map	72
3.3.5 User Interface	72
3.4 Development Phase Figure	75
3.5 Testing and Evaluation	77
3.5.1 Test Plan	77
3.5.2 Expert Evaluation	79
3.6 Documentation	82
3.7 Conclusion	82
Chapter 4: RESULT AND DISCUSSION	83
4.2 Business Process Improvement	83
4.3 Booking System of Lawa Studio	86
4.3.2 System Flow for Staff	94
4.3.3 System Flow for Manager	103
4.4 System Testing	106
3.5.2 Expert Evaluation	108
4.5 Discussion	117
