ACKNOWLEDGEMENT

Assalamualaikum w.b.t. Completing this research was a challenging project for us. However, fortunately we had the help of many parties that made this project less difficult. Tuan Haji Abdul Hameed kept us motivated and on course during all those moments things were not going as planned. We were delayed and the questionnaires were not going as planned. We thank him from the bottom of our hearts for being there in our moments of need. Thank you very much.

Our Supervisor, Tuan Haji Abdul Hameed deserves a special mention here. He was insistent on the meetings and deadlines which we did not quite appreciate then. But looking back, his toughness made us work harder and for that we will always be grateful.

We would like to thank our lecturer, Prof Madya Mohd Nor who taught us many things about research but did not tell us that it would be this difficult. We learn a valuable lesson about research in action. Things do not go as expected or planned.

We would like to thank Allah Almighty without whose blessing we will not have successfully completed this study.

Thank you.

ABSTRACT

The performance of the students contributes to the achievement of faculty in providing the better graduates in the future. The achievement of student are based on the performance of the students in their study. The study is to determine whether the result of former diploma of UiTM is much better than non former UiTM students or vice versa. The study examines the comparison of those with the diploma holders from UiTM and those without the diploma of UiTM. A systematic sampling of 84 respondent from part 3 and 4 students for semester December 2007 until May 2008 in Bachelor Administrative Science (Hons) that have been answered the questionnaires been given. The performance of the students towards the degree subject was examined. The student learning techniques and facilities provided contribute to the performance of the students. The study indicates that there are differences results between students of diploma holders from UiTM and those without the diploma from UiTM in academic performance.

1.5	Significance of the study	6
1.6	Definition of terms/concepts	7

Chapter 2: Literature Review & Conceptual Framework

2.1	Introduction	10
2.2	Conceptual framework	12
2.3	Hypothesis	17
2.4	Conclusion	19

Chapter 3: Research Design and Methodology

3.1	Research design	20
3.2	Unit of analysis	20
3.3	Sample size	20
3.4	Sampling technique	21
3.5	Measurement/Instrumentation	22
3.6	Data collection	26
3.7	Data analysis	26

Chapter 4: Findings

4.1	Respondents' profile	27
4.2	Objective	30
4.3	Summary	36

Chapter 5: Discussion and Conclusion

5.1	Respondent profile	37
5.1.2	The study technique	38
5.1.3	Level of satisfaction with the facilities provided	38
5.2	Limitation	38
