INNOVATION TRAILBLAZERS

“The first step in teaching students to innovate is making sure that educators have opportunities to be innovators themselves.”

- Suzie Boss

Innovation has been continuously inculcated in APB’s ecosystem in recent years. These efforts have contributed to innovators to be highly regarded in academia.

Therefore, it is exciting to see many APB lecturers are embracing the innovation philosophy and sharing their creative ideas on local and international innovation platforms. Hence, we would like to take this opportunity to extend our sincerest congratulations to the following lecturers on their innovation achievements. Keep going, fellow colleagues!

Conceptualising an innovation is never a linear process and requires frequent trial and error, but we have full faith that your innovations will benefit the society and most importantly, our UiTM family.
