## ACADEMIC INSIGHTS AND INDUSTRY EXPERIENCES: FIN388 VISIT TO MBSB BANK

Author: Norazimah Mejri

On June 14, 2024, students enrolled in the Ethics and Governance in Financial Services (FIN388) course participated in an academic visit to the Mukah branch of MBSB Bank. This visit was designed to provide students with practical exposure to workplace operations and enhance their understanding of the critical role that ethics and governance play in financial institutions.

MBSB Bank, a fully Shariah-compliant Islamic bank in Malaysia, serves a wide array of retail, SME, and corporate clients. As a subsidiary of Malaysia Building Society Berhad (MBSB), the bank is a leader in the country's financial sector, distinguished by its innovative approach to digital banking and customer service. With a robust nationwide presence through both physical and virtual branches, MBSB Bank has solidified its reputation for delivering high-quality, accessible banking services.

During the visit, students gained insights into the bank's operational framework, governance practices, and decision-making processes. They observed the real-world application of ethical principles within financial services, illustrating how these practices shape the operational integrity of institutions like MBSB Bank.

Through this learning experience, students witnessed MBSB Bank's commitment to maintaining high ethical and governance standards, from risk management and compliance to corporate social responsibility initiatives. They also had the chance to interact with banking professionals, ask questions, and seek deeper insights into various aspects of the industry.

The FIN388 academic visit proved to be an invaluable experience, effectively bridging the gap between classroom theory and industry practice. By combining academic knowledge with practical exposure, the students were better equipped to grasp the importance of ethics and governance in the financial services sector, preparing them for future roles in the banking and finance industry.
