## ACKNOWLEDGEMENT

*In the name of Allah, the Most Gracious and Most Merciful,*

*Our beloved Prophet, Muhammad S.A.W*

Alhamdulillah, with the cooperation and support of the various parties, this paper has finally been completed and fully implemented. I would like to thank all those who have been guiding, assisting, and supporting me through this study either using information, power, or the entire process.

I would like to take this occasion to thank Ustazah Nik Muniyati Binti Nik Din, my guide and adviser, for her excellent leadership, continual encouragement, and monitoring during the study. I am appreciative that I was able to finish my studies in the allotted period by my lecturer. I also sincerely thank Ustazah Nik Muniyati Binti Nik Din for educating me during this study and for her assistance and motivation in getting this study finished. Her guidance and patience made sure that everything went smoothly and that the project stayed on course.

Lastly, I would like to express my gratitude to my wonderful family, who provided me with all the assistance, tolerance, and inspiration I needed to finish this research. I am grateful to my friends for sharing their thoughts, time, support, and guidance.

Thank you, and may Allah SWT grant us His blessings and abundance.

## ABSTRACT

This paper aimed to identify the Level of Understanding of Zakat on Savings Among Workers At Perbadanan Kemajuan Iktisad Negeri Kelantan (PKINK). The level of understanding of Zakat on savings is a question of the level of understanding of workers at PKINK about the basics of Zakat on savings and its relationship with knowledge, religiosity, and attitudes. In this research study, the main sampling method being used by the researcher is non-probability sampling. The researcher used a non-probability sampling of the people who work in PKINK, regardless of their position and rank. A sample size is 100 respondents was chosen to obtain the data. In this study, the data was analyzed by using statistical software known as Statistical Package for Social Science (SPSS). This researcher uses frequency analysis, reliability analysis, regression analysis, and Pearson correlation analysis to analyze the data. In this study, the results show that knowledge, religiosity, and attitudes have a significant influence on the workers at PKINK in payment Zakat on savings.

**Keywords:** Zakat on savings, workers at PKINK, knowledge, religiosity, and attitudes

## **CHAPTER 1: INTRODUCTION**

### **1.1 OVERVIEW**

This chapter provided a clear direction for the research by providing an outline of the research's background and objectives. A succinct synopsis of the subject, which is the level of understanding that we must learn. The study setting, which will clarify the goal that has to be accomplished, as well as the research aim and research question, serve as recommendations for the researcher. The researcher will go into great depth about the study she intends to carry out in this chapter. Additionally, the problem statement will provide some insight into the researcher's motivation for doing this study. The study's limitations will highlight the obstacles the researcher must overcome, and by the conclusion of this chapter, the study's relevance will be completely understood. Lastly, the reader may better comprehend a few key concepts used in this study by consulting the definitions of the terms.

The understanding among the workers at PKINK, of Zakat on savings is extremely important as it will improve Zakat institutions and the national economy. In this study, the researcher aims to determine how well PKINK members grasp the fundamentals of Zakat on savings and whether they fully comprehend. The study background, problem statement, research objectives, research questions, the significance of the study, research study limitations, theoretical framework, and study scope will all be covered in this chapter.
