**(ESKU) 2025**

By: Mdm. Syahida Fathiah Ahmad Kamal, Assoc. Prof. Dr. Yuslina Zakaria

In line with the theme “Jadikan UiTM Pilihan No. 1”, the Faculty of Pharmacy proudly showcased its academic excellence and dynamic student environment at Ekspo Selangkah ke UiTM (ESKU) 2025, held from 26 to 27 April 2025 at Dewan Agung Tuanku Canselor, UiTM Shah Alam. This annual event welcomed thousands of prospective students, parents, and school counsellors eager to explore the opportunities that UiTM has to offer.

The Faculty’s booth attracted considerable attention, with enthusiastic lecturers, administrative staff, and current students engaging visitors and providing detailed information about the Diploma in Pharmacy (PH110) and the Bachelor of Pharmacy (Honours) (PH240). Both programs are renowned for producing highly competent assistant pharmacists and pharmacy graduates who contribute significantly to the national healthcare system.

The booth offered a glimpse into the Faculty’s rigorous academic environment and dynamic student life. Visitors were given the opportunity to explore study pathways, career prospects, and real-world applications within the field of pharmacy.

The Faculty highlighted key strengths, including:

- Strong professional accreditation by MQA and Lembaga Farmasi Malaysia.
- A consistent record of high graduate employability.
- Collaborative initiatives with industry partners.
- Active student engagement in community health programmes and research.

The Diploma in Pharmacy was also promoted as a solid foundation for those intending to enter the pharmaceutical field early. Graduates are qualified to work as pharmacist assistants in healthcare institutions or pursue further studies. Many diploma holders choose to continue their education by applying to the Bachelor of Pharmacy (Honours) programme through a competitive internal selection process.

Counselling sessions were conducted throughout the event to guide Sijil Pelajaran Malaysia (SPM) school leavers on entry requirements and future career prospects. The faculty reiterated its commitment to nurturing competent, ethical, and compassionate pharmacy professionals who are well-equipped to meet the demands of a global healthcare landscape.

Participation in ESKU 2025 reflects the Faculty of Pharmacy's dedication to outreach and inclusivity, inspiring the next generation of pharmacy professionals. The Faculty extends its gratitude to all visitors and looks forward to welcoming new students into the UiTM pharmacy family.
