Suhaida Halamy

In conjunction with the Kuala Lumpur de la Tour: Hope Utopia Project, 17 students and their lecturer, Nor Hayati Kassim from the School of Information Science, College of Computing, Informatics and Media, UiTM Sarawak paid a visit to the National Library of Malaysia (NLM) and the National Archive of Malaysia (NAM) in Kuala Lumpur. This program was held from November 27 to December 1, 2022. The aim of the visit was to help students deepen their understanding of the topics they have learned, thus providing them with practical reminders about what they can use in the examination hall.

It also gave students valuable hands-on experience in two different information agencies which a normal classroom setting would not be able to provide. Demonstration on how documents are preserved in NAM was one of the memorable activities during the visit. The students also had the opportunity to tour NLM's restricted area which houses thousands of books received by the library as part of implementation of the Deposit of Library Material Act 1986. Although the students only spent half a day in the information agencies, they were able to learn something from the librarians and archivists.
