ACKNOWLEDGMENT

In the name of Allah, first of all praise and gratitude to Allah S.W.T with whose mercy enables us to complete this project paper to meet requirement of Bachelor Business Administration with Honours (Finance) at Faculty of Business Management.

First of all, toward this regards we would like to say Alhamdulillah, for giving us the chance to do this project work until it done. We also not forgotten for those who helped and supported us to complete this task so that we will not procrastinate in doing this job.

Special thanks; we would like to say to our beloved lecture Miss SitiNurulhudabinti Ibrahim who was continuously provide us assistant and guidance throughout this preparation of this project paper ; Industrial Training Project Paper (FIN668) .Although we had some difficulties in doing this task, but she taught us and guide us with patiently until weknew what to do.

Other appreciation also goes to our beloved classmates, friends, company's staff and family for their understanding and support. Theyweresupported us in doing this project and sharing the ideas. They were helpful that when we combine and discussed together, we had this task done, although sometimes we were at different team. Besides that, not to forgotten for the citizen of Johor, Melaka and Negeri Sembilan especially the Public Gold in Johor Bahru and also group of Dinar Emas (PengedarSyilingSedunia) and Dinar Emas Dirham Emas through .their willingness, cooperation and spent their time to participate in answered the questionnaires. Thank you very much.

ABSTRACT

The main purpose of this study is to determine the factors that influence to the public acceptance of the Islamic gold dinar investment in South Area of Malaysia (Johor, Melaka and Negeri Sembilan). This topic was chosen because the researchers want to know deeply the reaction and acceptance of public towards gold dinar investment. The factors are such politic factor, investment factor, economy factor, social factor, and intrinsic value. Primary data was used in this study using distribution of questionnaire. The aim is to get 100 respondents, so 100 questionnaires were to respondents who are user of the gold dinar. From 100 questionnaires that have been distributed, all 100 questionnaires managed to be collected and were analysed using SPSS Version 21. The Pearson Correlation was used to find the significant relationship between those variables. From the findings, all independent variables have significant result toward dependent variable and can be used in making prediction this study.
