Team building was instilled among the students and the lecturer accompanying the students was Pn Norzaihan Hashim.

Site Visit to Viva City Mall, Kuching

By: Yeo Jiin Yih & Siti Hamidah

On 7th September 2015, Madam Siti Hamidah led a team of 48 students taking the course of Construction Building III to the Viva City Mall, Kuching. The main objective of the site visit was to expose students to the concept of Industrial Building System (IBS) and its application in the construction industry. IBS is a construction process that utilizes techniques, products, components, or building systems which involve mainly the prefabricated components and onsite installation.

During the site visit, detailed explanations were given by Mr. Tan, the Project Manager of the construction project. Students learnt the different building services, construction materials as well as the progress of the construction using IBS and the elements in the construction. After the trip, the students were able to understand the real condition at the construction site and other aspects of construction such as finishes and air ventilation system.
