Date: _____

ACKNOWLEDGEMENT

In the name of Allah S.W.T the creator of all creations, all praises be to Him the Most Merciful the Most Blessings.

First and foremost, I sincerely to thank to my advisor, PM Haji Nasir bin Hj Nordin who gives me guidance, advice and comments in completing this project paper. Special thanks also goes to my second advisor, En. Sharifuddin bin Ismail who evaluate my report and presentation.

Special thanks also for all the staffs of Majlis Perbandaran Muar especially to En. Johari bin Samingon (Practical Training Manager) for giving me an opportunity and trustworthy to do my practical training at Majlis Perbandaran Muar. Special appreciation is extended to my supervisor, En. Nashruddin bin Othman for the valuable guidance, advice, opinion and support during the practical training and also to all staffs for their helps and motivation in order to answer the questionnaires. All the memorable experiences are valuable and all your kindness is appreciated.

Besides, special mention also for all my friends especially to my classmates BBA (Finance), thanks for your support and commitment.

Hope this project paper will be useful to all students, especially to those who are interested in this study.

ABSTRACT

This study is focus on an implementation of ergonomics working environment. The first objective of this research is to study about the implementation of ergonomics working environment at Majlis Perbandaran Muar. Secondly the objective is to determine the most dominant factors that contribute to the implementation of ergonomics working environment. Lastly the objective of this research is to propose some recommendation in order to help the management to overcome the problem faced. All the objectives were using different method in analyze the result.

For the first objective, the researcher used descriptive analysis in order to get the result. So, it shows that the Majlis Perbandaran Muar was implementing the ergonomics working environment. Then, the researcher used stepwise regression in order to know the most dominant factor that contributes to the implementation. It shows that the physical environment is the variable that most contribute to the implementation of ergonomics working environment at Majlis Perbandaran Muar.

The researcher also provides some suggestion to solve some problem arise. The researcher would suggest that the organization should provide awareness programme to educate the staffs. In addition, the researcher also recommend that workers need to participate in all programme provide by the organization. The organization should provide ergonomics training to the workers in order to avoid them from suffering any injuries. Finally, the researcher also suggests that the communication also important as a medium in implementing ergonomics working environment.
