Abstract

“My Book” is an activity book for toddlers to pre-schoolers. An activity book is a type of book generally aimed at children, containing interactive content such as games, puzzles, quizzes, matches and other elements. Activity books may be made for entertainment, education or a mixture. This activity book includes customising and matching to the correct answer, acknowledging animal, alphabetical, body parts, numbers, colours and shapes. It provides a fun and new experience besides helping them to develop their reading ability while participating in a range of literacy and critical thinking activities.

Keywords

Children’s books, early literacy skills, games and art books.

Product Description

My Book is a physical book with seven pages with sections such as alphabets, numbers, shapes, colours, animals and body parts. We used cardboard files as the book's cover, pages, and other elements. My Book is colourful and cheerful.

Novelty and Uniqueness

This handmade book is unique because it is handy and easy to carry anywhere, has attractive decorations, and is suitable for children. It is a creative book that uses moveable activities that allow children to use repeatedly. It is also enjoyable because they can learn while playing, and it could help them learn words and language to develop early literacy skills. Besides that, we also implement the concept of 3R (Reuse, Reduce, Recycle) for our book activity’s material.

Benefit to Mankind

This “My Book” is handy and easy to carry because it has a holder that users can easily carry everywhere. After that, “My Book” is also a fantastic product for children because it can attract their interest in learning. Furthermore, our product can also develop children's literacy and critical thinking. Lastly, this product can build teamwork among children to complete the activities in this book together.

Potential Commercialization

- Parents
- Kindergarten
- Children library

Acknowledgement

Firstly, we would like to thank our lecturer Madam Nordibradini binti Selamat. Her willingness to help us understand the task, search for the correct information and teach us the right way to do this task is appreciated. She has sacrificed a lot for us, especially in making this task into reality.
