UiTM Samarahan 'Haunted Hospital'

By: Frannelya Francis

The nursing students of UiTM Sarawak kick-started the new year 2016 with a creative and innovative project called the Haunted Hospital. This project was to raise funds for the upcoming nursing dinner, which is held annually. The Haunted Hospital project, which exposed the nursing students to entrepreneurship, was successfully held on 18 and 19 January 2016 from 6.00 pm to 10.30 pm in Blok E, Nursing Skills Laboratory. About 1000 students from both campuses participated in the fun, thrill and horror in a haunted hospital with only just RM2 entrance fee. The idea of a haunted hospital was made real by using hospital props and equipment and the students dressed as dead doctors, nurses and patients to add to the horror. Many positive feedbacks were received and this project not only taught the nursing students about the value of teamwork but it also enhanced creativity and knowledge on entrepreneurship skills. The organisers would like to thank all the participants for being supportive of the project and we hope to see you all in Haunted Hospital 2!
