# **Part 1: Introduction**

## **1.1 Executive Summary**

This internship report provides a comprehensive overview of my experience as an intern at Uzma Berhad, specifically within its LNG (Liquefied Natural Gas) business division. The internship, conducted from 3<sup>rd</sup> March until mid of August on the 15<sup>th</sup>, offered valuable exposure to the technical, commercial, and strategic aspects of small-scale LNG (ssLNG) operations. It is an emerging and essential pillar of Uzma's clean energy strategy.

Uzma LNG plays a pivotal role in supporting Malaysia's energy transition, offering sustainable and flexible energy solutions to off-grid and industrial clients through its ssLNG initiatives. Throughout the internship, I was involved in observing and supporting key business functions, including LNG import and distribution licensing, virtual pipeline logistics, mobile regasification systems, and off-grid industrial energy planning. This enabled me to gain a well-rounded understanding of how Uzma leverages its upstream oil and gas expertise to penetrate the clean energy sector with high operational discipline and technical credibility.

The report explores critical business factors influencing Uzma LNG's growth, including its strengths in technical capability and market positioning, opportunities aligned with national sustainability goals, and challenges such as regulatory complexity, pricing volatility, and logistics dependency. Through SWOT analysis and strategic observations, several recommendations are proposed to enhance Uzma's competitiveness, including investment in digital logistics tools, strategic partnerships, policy engagement, and risk management mechanisms.

Overall, this internship has significantly deepened my understanding of the LNG value chain and Malaysia's broader energy transition. It has also developed my appreciation for the complexities of delivering energy solutions that are not only economically viable but also environmentally responsible. The experience at Uzma LNG has reinforced my interest in sustainable energy development and provided me with practical skills and insights that will be valuable in my future career.

## **1.2 Acknowledgement**

First and foremost, I want to sincerely thank Universiti Teknologi MARA (UiTM) Bandaraya Melaka, particularly the Faculty of Business and Management, for giving me the chance to engage in this internship program as a component of my academic career. My lecturers' assistance and direction during this process have been crucial in getting me ready for the workforce.

I also want to express my sincere gratitude to Uzma Group for hiring me as an intern and giving me the opportunity to work for a vibrant, creative, and progressive company. I have been able to learn a lot about the energy sector thanks to this opportunity, particularly in LNG.

I would like to particularly acknowledge Nurul Sharina Nasir, my internship supervisor, for her invaluable time, confidence, and guidance during my time at Uzma. I was able to comprehend the professional and technical standards in an actual business setting thanks to your constant advice, criticism, and support. I appreciate you making my internship experience easier and more significant for me going forward.

I also want to express my sincere gratitude to the whole LNG Department team, whose made me feel like a real colleague instead of just an intern, welcomed me with open arms, and shared their knowledge. I am particularly grateful to Encik Abdul Hafiz Salleh, the head of the Energy Trading Department, for his guidance and extensive industry exposure. To all Uzma staff, thank you for creating such a positive and supportive work culture. Your generosity in sharing knowledge, your professionalism, and your kindness have made this internship experience not only educational but also personally meaningful.

Lastly, I would like to acknowledge the constant encouragement from my family, friends, and especially my internship coordinator Madam Khalilah Ibrahim whose guidance and belief in my abilities have motivated me to make the most of this opportunity. This internship has strengthened both my professional capabilities and personal growth, and I am truly thankful to every individual who played a role in making it a memorable and rewarding journey.
