## ACKNOWLEDGEMENT

We would like to express our deepest appreciation to all those who provided us the possibility to complete this report. We would also like to thank the agricultural department of enforcement and crop protection sections for allowing us for conducting our industrial training at their department for about 14 weeks. Especially to Puan Masliah Hj Suhaimi as assistant director of agriculture, enforcement and crop protection sections which has been supervising all our task that have been given to us.

Furthermore, we would also like to acknowledge with much appreciation the crucial role of the staff of plant quarantine sections who gave the permission to use all required equipment and the necessary materials to complete the task. All guidance from the staff of plant quarantine sections has given us an experience in the field of employment and all this working experience surely can help us in the future.

Not to forget to our lecturer, En.Hamjah Rusli that has been helping, guiding us for the entire semester.

Finally yet importantly, we would also like to thank our parents who has encouraged and support us to prepare a report book and completing the exercise industry for about 14 weeks. We know that without any support from all parties, this industrial report book cannot be completed on time and we want all parties to know that we appreciate your contribution.

## **1.1 AGENCY BACKGROUND**

Seksyen Penguatkuasaan dan Perlindungan runs quarantine service activities to prevent shattering Sabah industry from threats and disease from the outside. This service is running based on the Plant Quarantine Act 1976 and the Plant Quarantine Regulations of 1981 been enforced.

The objective existence section is to reduce the risk of entry of insects and deadly diseases including weeds, noxious weeds to the Sabah state, as well as control the movement and to prevent spread to other areas.

There are four component of plant quarantine section in Malaysia; they are Peninsular Malaysia, Labuan, Sabah and Sarawak. These components in Sabah, there are seven agricultural offices that provide quarantine services which consist of Kota Kinabalu, Kuala Penyu, Sipitang, Sandakan, Lahad Datu, Semporna and Tawau.

This quarantine sections mainly in their headquarters at Kota Kinabalu provide services such As Import Permit Production, Phytosanitary Certificate, Export License, and Certificate Concerning the Consignments.

## **1.2 INSPECTION POINTS**

There are about five (5) inspection points in Kota kinabalu which consist of:

- Kota Kinabalu International Airport (KKIA) Terminal 1
- MAS Cargo Kota Kinabalu
- Jesselton Point Jetty
- Sepanggar Port
- Pos Office Kota Kinabalu

While conducting the inspection, there is an inspection procedures that must be follow:

- Inspection of documents and consignment at the entrance.
- If there any Import Permit and Phytosanitary Certificate shown and pest-free, will be released.
- Involving the detention and confiscation, detention notice issued paper & given to the importer or agent.
- Confiscation of materials will be taken to the next action (destroyed or treated) in certain cases; confiscating materials will be directed to be returned to their country of origin.
