## 1.1 Infrastructures

Infrastructure is one of the main component and asset of an Skim. It helps the Skim to function efficiently and run any activities smoothly and also minimize some sort of problem that might affect the productivity in an Skim. There are few infrastructures in Skim Penempatan Getah Kuala Tomani (SPGKT) such as:

- Roads
- Residents
- School
- Garaj
- Storage
- Office

### Roads

Roads are the important part because it is the main cable of transportation in and out of Skim. There are 2 types of road in SPGKT.

- a. Main road
- b. Field road

### Residents

Resident is also one of the infrastructures that prepared by government of LiGS from the Manager and Assistant Manager house, staff house, driver house, and settler house. Water and electricity are also prepared by company for the comfortable life.
