AKNOWLEDGEMENT

Firstly, we would like to thank Allah for giving us strength and health to finish our internship successfully. Next, we would like to express the deepest appreciation to our lecturer, Mister MuhamadSyukrie bin Hj Abu Talip for giving us chances to undergo our internship for 6 weeks to improve our performance and gain a lot of new experiences.

Moreover, a big thanks to the manager of Malaysia Cocoa Board, Kota Samarahan, Dr.Ahmad Kamil bin Hj. Jaaffar for giving us opportunity to broaden our horizon on cocoas at Malaysia Cocoa Board, Kota Samarahan.

We would also like to thank our supervisor, Mister Aizat bin Japar, Madam Nurafizabin Aman& Mister Anthony for their guidance and their willingness to share their experiences along our industrial training. Our appreciation goes to the other supporting staff as well.

Last but not least, we would express our gratitude to our parents for their endless support. Be it mentally or morally. Also, we would like to thanks to Malaysia Cocoa Board generally personally and we will never forget all of you with our moiment at this agency. Thank you.

1.0 ORGANISATION BACKGROUND

MALAYSIAN COCOA BOARD

The Malaysian Cocoa Board (MCB) is a federal statutory research and development agency under the Ministry of Plantation Industries and Commodities. It was established under the Act of Parliament 343(incorporated) in 1988 and has been in operation since 1989. The rapid expansion of the cocoa industry in the late 1970s and early 1980s has triggered the realisation that the multi faceted activities of the industry would have to be coordinated and integrated under an umbrella organisation to ensure its continued health growth. MCB was officially in operation on 18th July, 1989.

4.4 CONCLUSION

As a conclusion, there is a lot of valuable knowledge and experiences I have gained during 6 weeks as a trainee practical student at Malaysian Cocoa Board, Kota Samarahan. Firstly, I had got some basic information about Malaysian Cocoa Board, Kota Samarahan and what exactly their main mission and vision in making improvement towards the future of cocoa industry which is result in better yields and income. They engage in responsible labour practices, protect the environment and are able to meet the need of nowadays cocoa industry R&D. MCB target group development includes cocoa smallholder, agriculture entrepreneurs and handmade chocolate entrepreneurs. The main objective of the development programme is to increase the productivity of the cocoa production include visits, meeting and training on planting and quality management.

As I one of trainee practical student at MCB, I have the opportunity to learn and get the chance to through those programme. I do learn a lot of knowledge which is I can imagine before and which is I can gain in classroom.
