REPORT ON INDUSTRIAL TRAINING AT
FGV LADANG FELDA SAHABAT 10
(LAHAD DATU)

BEDE ERNEST HARRY MAUL (2016163553)

DIPLOMA IN PLANTING INDUSTRY AND MANAGEMENT

FACULTY OF PLANTATION AND
AGROTECHNOLOGY

JULY 2019

ACKNOWLEDGEMENTS

Praise to the Lord for strength, health and opportunity given to us as without Him, I might not able gone through all obstacles during our practical and study. I felt bless and grateful that I could finish the task given on time. I also owe much thanks to many people whom have helped and supported me during preparing the report. In particular, I wish to express my sincere appreciation to the manager, John Ganie who gave his guidance, advice and friendship during my internship. I am also thankful to all staffs and workers at FGV Ladang Felda Sahabat 10 for their willingness to teach and guide me.

LIST OF ABBREVIATIONS

This report also could not have been prepared without the help and encouragement from various people. I would like to thank my family for their encouragement and blessing and support in many ways. I also want to thank FGV Ladang Felda Sahabat 10 for guiding me until the completion of this final report.

1.2 OBJECTIVES

I would like to thank to my lecturers Ts. Dr. Hendry Joseph, Mr. Hamjah Bin Rusli, Mr. Mohd Hafezan bin Sisa and Mrs. Dayang Shurtinie binti Dato Shuaib for their help in getting the industrial training placement. Once again, I am thankful to all who have helped me either directly or indirectly until the completion of this final report.

2.3 ACTIVITIES

2.3.1 PLANTING

2.4 FIELD MAINTENANCE

2.4.2 Road maintenance

Figure 1 Activities of patching road

2.4.3 Fertilizing

2.4.4 PRUNING

2.5 HARVESTING OF PALM

2.5.1 Harvesting procedure

3.0 CONCLUSIONS

4.0 RECOMMENDATIONS

5.0 REFERENCES

6.0 APPENDICES

1.0 INTRODUCTION

1.1 Agency Background

FELDA began developing land in mid-1979 based on the approval of the State Government through the State Government Gazette of Sabah No. 148 and 223. As of 2000, FELDA has opened a land of 124,389 hectares, of which 98% are plantation areas, especially palm oil and 2% are plots and towns. The excess of the area cannot be developed by the FELDA due to the suitability of the area as well as recaptures by the Sabah State Government. Figure 1.1 shows the logo of FGV.
