Appreciation

We are grateful to the almighty with His countless blessings, we are able to finish out final report of fieldwork (FPA 150). Throughout the process of completing this project, we gained a lot of memorable experience that we will cherish and remember the rest of our life. The experience that we gained along the way might not come twice in our life.

Other than that, we also learnt a lot about our fruit plot, and we gained more knowledge about the topic that focused on in our project in details. Therefore, we want to thank everyone who has contributed in completing our project. First and foremost is our own lecturer, Ms Sayyidah Raffhanah Bt Basri for guiding us along the way. Her guidance have helped us a lot in completing our fieldwork practical.

Moreover, we would like to thank the staffs at Ladang UiTM Samarahan for giving us advice and teaching us a lot.

Last but not least, we would like to express our gratitude to everyone that have helped us throughout our practical knowingly or unknowingly. All the help that have been given to us is very much appreciated. Without everyone's neip we couldn't have done our project successfully

Universiti Teknologi MARA (UiTM) Sarawak permanent campus is located in Kota Samarahan, a developing area, known better as the 'knowledge hub'. It is among the earliest public higher learning institutions established in Sarawak. UiTM Sarawak began its historical chapter when its first campus began operating on 1 July 1973 at Batu Lintang and it faced several relocations, Semenggok (1987), Semariang (1991) and finally settled in Samarahan in 1997. The Mukah Campus on the other hand, started its operation in 2002.

Universiti Teknologi MARA (UiTM) is Malaysia's largest institution of higher learning in terms of size and population. It has experienced phenomenal growth since its inception in 1956 and it is still growing. Beside the main campus in Shah Alam, the university has expanded nationwide with 12 state campuses, 6 satellite campuses in Shah Alam, 11 state satellite campuses and 21 affiliated colleges. With this vast network and a workforce of 17,770, the university offers more than 500 academic programmes in a conducive and vibrant environment.

To accommodate the increasing number of students, six new branch campuses were completed by 2014, namely Phase 2 of Puncak Alam Campus, Samarahan 2 Campus in Sarawak, Jasin

CONCLUSION

From this industrial training I can get a new knowledge that can help me in my future and also in my study. I have to learned on how to be a good worker that can help the management to improve the name of company. Beside learn a new thing I also can improve my work skill and learn how to work at group and how to handle others worker. This skill can I improve when I do a practical at the real estate or plantation because I has an experience on it. I also learn about how to manage my time at work and be a worker that owner like.
