# ACKNOWLEDGEMENT

First of all, we would like to praise to Allah S.W.T for blessing us along our practical until successfully end practical session in BENTA WAWASAN SDN BHD, Seraya Estate, from 01 December 2015 until 06 Mac 2016

Firstly, we want to say thanks a lot to Mr Syukrie Bin Abu Talip our lecturer for the opportunity and the hardworking in managing our appliance of practical. We are really appreciate and thankful that we are able to get our practical place.

My first thanks also goes to Mr Chu Chee Ming, the Manager of Seraya Estate, whom kindly hearted give us permission to do our practical session here until the end. We are really thankful for the support and help given to us along our practical session in this estate.

Secondly, a big appreciation of thanks goes to Mr Henry Adalbert Ellou and Mr Hasbullah Bin Hj Yalli the assistant manager, whom guided and conduct us along our practical session. We are really appreciate for the such advices , guide, and experiences given to us along our lesson here.

Thirdly, not forgot to all of the staff and training staff that contribute directly or indirectly during our practical session here. They have shared their knowledge and experiences that we are really need as are plantation students. Thanks a lot for the such teamwork and commitment given to us, we are really appreciated it.

THANK YOU.

# INTRODUCTION

As a student of Diploma in Planting Industry Management, we are required to doing our practical session for the last semester. Practical is the last subject that a compulsory need to be done by the student before they have their diploma. Practical need to be completed in three months, we are given credit hour six hour for this subject and later need to be presented for the evaluation.

The practical training is a must be done for every student to make them have their own experiences in doing the work in the field of what had applied for their practical session. In the class, students only learn about the theories without doing practical. By doing the practical session, students can train themselves to doing work in real working condition and try to apply their knowledge about the plantation that has been learned in the class.

Furthermore, Practical training also helps students to improve their working skill in the field and increases their performances by having the practical. Other than that, students also will learn how to communicate effectively to the workers and the staff in other to conduct the work in the field. A good communication will ensure the orders that are delivers to the worker are more effective.

Besides, student are also trained to do all the work in the estate, by doing the work, students will get the experiences and know how to doing it with the correct technique. This is important for them as a plantation student to try all the work because when they become are executive in the plantation sector, they need to demonstrate it to the workers with the correct technique.
