DIPLOMA IN PLANTING INDUSTRY AND MANAGEMENT  
FACULTY OF PLANTATION AND AGROTECHNOLOGY  
UNIVERSITY TECHNOLOGY OF MARA

MARCH 2015

## ACKNOWLEDGEMENT

Praise to Allah SWT, the Most Gracious, the Most Merciful, peace and blessing upon our Prophet Muhammad SAW. Alhamdulillah for the 17 weeks I undergo my Industrial Training at Integrated Agricultural Training Centre (IATC), Penampang that begins on 1<sup>st</sup> December 2014 till 13<sup>th</sup> March 2015, I finally successfully completed my Industrial Training.

I also would like to extend my thankfulness to the most precious persons in my life, my father and mother for all their moral support, financial support and also to my friends for never ending reminding me to always be honest and trustworthy during my training session.

As for all the lecturers from University Technology of Mara (UiTM), I thank all of you for all the reprimand and guidance as it is very helpful for me in completing my report. Besides, I would like to extend my appreciation to all the supervisors and all the staffs at IATC that never tired of giving me new knowledge. Never forget to all my siblings that give me support either directly or indirectly along the Industrial Training.

Last but not least, I would like to thank to the Assistant Director of Agriculture, also known as the Principle of Integrated Agricultural Training Centre, Mr Dzul kifli Hj. Gulamdin for accepting me to complete my Industrial Training at IACT, Penampang.

As is it known, the world of working is a completely different phase compared to the time when we are studying; therefore by going for an industrial training it is in hope that the students are well prepared and have high confidence to serve the community.

## EXECUTIVE SUMMARY

On 1<sup>st</sup> December 2014, I started my Industrial Training at Integrated Agricultural Training Centre. My schedule for my Industrial Training there are divided to 5 different units which are Fisheries Unit, Veterinary Units, Agronomy Units, Horticulture Units and Industrial Plants Unit.

At the Fisheries Unit I learn about freshwater fish which the main fish is tilapia. The next unit is the Veterinary Unit. I learn about animals such as chicken, duck, quail and a bit about goat. The third unit is the Agronomy Unit and I learn about peanuts and sweet corn. Next unit is the Horticulture Unit which I learn about marcotting, polybag planting and more. The last unit is at the Industrial Plants Unit which I learn about VCO processing.

## **1.0 INTRODUCTION**

### **1.1 Agency Background**

#### **Jabatan Pertanian Sabah**

Jabatan Pertanian Sabah has officially exist as a separate entity since November, 1946. In the early stages, Jabatan Pertanian Sabah is also responsible for the affairs of the animal husbandry and fisheries .

After Sabah 's independence , several separate departments and agencies have been established under the Ministry of Agriculture and Food Industry to address other areas and certain aspects relating to the development of the planting industry. Currently, Jabatan Pertanian Sabah is among several departments and agencies under the Ministry of Agriculture and Food Industry.
