# PROFESSORIAL LECTURE BY PROFESSOR TS. DR. WARDAH TAHIR

June 7th, 2024, The School of Civil Engineering, College of Engineering was successfully organized professorial lecture by the esteemed Prof. Ts. Dr. Wardah Tahir, entitled "Forecasting the Impending Flood Disaster". In her lecture, Prof. Ts. Dr. Wardah Tahir delved into advanced methodologies and technologies used for flood forecasting.

Prof. Ts. Dr. Wardah Tahir is a leading expert in the field of water resources engineering, with a particular focus on hydrology and disaster management. Her extensive research and experience in flood forecasting have made significant contributions to the field, positioning her as a respected authority on the subject. Her work not only advances scientific understanding but also plays a crucial role in shaping policies and practices for disaster risk reduction.

This enlightening lecture had been participated by the top management of UiTM, academicians from the universities, various prestige government and industries such as Department of Irrigation & Drainage, Malaysia Meteorological Department, River Care Sdn Bhd, ZHL Engineers and many more.

# MEETING OF SCE TOP MANAGEMENT WITH LECTURERS

The start of the March 2024 semester saw a meeting between the top management and lecturers of the School of Civil Engineering. The meeting divided the staff into three sessions according to their years of service: junior, senior, and super senior. The primary goal of the meeting was to discuss staff thoughts, questions, or any suggestions for management's consideration and follow-up actions. The topics addressed included not only teaching and learning issues, but also leadership, staff welfare, and achievements.
